

HAIN

Hain is located in Ford County approximately 5 miles north and 8 miles east of Dodge City and is 2 1/4 miles east of US 283. The property is leased from the owners to sup-

ply hunting and fishing opportunity. The area consists of 20 acres of uplands and 35 surface acres of lake. Due to its shallow depth, Hain supplies excellent wetland habitat. However, the lake may go

dry during drought periods.

Waterfowl hunting is the primary use of the area. Due to the general lack of water in the area, the lake is stocked to supply basic fishing opportunity.

HUNTING

Although some upland game hunting is available on the area, it is limited. However, the shallow lake is excellent for waterfowl on the upper end of the lake. Public hunting is allowed on the lake and within a strip of land 150 feet on each side of the channel, ending on the

south property line.

This area is not fenced or signed, hunters should be aware of this restriction and not venture too far from the water's edge.

FISHING

When water is available, the Department stocks this lake with catchable-size channel catfish and large-mouth bass. Bluegill and bullhead catfish may also be available.

Please check printed regulations and information signs to obtain current length and creel limits.

PUBLIC USE FACILITIES

Camping is allowed on the area, but there are few facilities. There are no restrooms available. Two picnic shelters are available, one on each side of the lake.

Boats are allowed on the lake, but no boat ramp is available.

A No Trash policy is in effect. Please help keep the area clean; take your trash home with you.

VEHICLE ACCESS

The primary use of the area is waterfowl hunting. The area is closed to vehicle traffic during the waterfowl seasons. Walk-in traffic is welcome both for fishing and hunting at this time.

Parking lots are supplied at both entrances when gates are closed.

When gates are open, vehicles must stay on established trails. Please do not start new trails because they destroy habitat and cause erosion.
