

KIOWA

Kiowa State Fishing Lake is located in the northwest corner of Greensburg, in Kiowa County. The 21-acre lake is located in the middle of 43 acres of

land. The land was purchased in 1966 for the purpose of constructing a state fishing lake. In 1984 the lake was drained for rehabilitation of the fish population and to seal

the lake bottom. To maintain the water level, it is necessary to pump ground water into the lake from a well located on the property.

MANAGEMENT

In 1994, an agreement was made between the City of Greensburg and the department of Wildlife and Parks. The city agreed to take on the daily maintenance of the area in order to enhance the area for visitors to their city. The department still manages the fishing on the

area, carries out any major maintenance required and administers the agreement between the city and the department. This agreement has been mutually beneficial to the city, department and especially to the users of this unique State Fishing Lake.

FISHING

The primary purpose for the Kiowa State Fishing Lake is to supply fishing opportunities in an area in need of such activities. The area is regularly stocked with channel catfish and also supplies good popula-

tions of largemouth bass, bluegill, and crappie. Please check printed regulations and information signs to obtain current length and creel lengths.

PUBLIC USE FACILITIES

Five shelters with picnic tables can be found on the property along with one vault type toilet. Camping is allowed on the area. However, no electrical or sewer hookups are available. The fishing docks and toilet are accessible to the physically challenged.

Vehicles must stay on established roadways and parking lots.
No hunting is allowed on this property.
