Try out an Elk Burger or Elk Chicken Fried Steak at The Cove.
Buy Elk Steaks, Burger & cuts at the Acorns Resort Information Center.
Arrange a fun and informative Elk Tour for your group.

LODGING

On the Ranch or at a Lakeside Resort

1800S LIMESTONE
Fully renovated one bedroom & sofa sleeper, living room, full kitchen & bathroom, porch, BBQ grill & upstairs event space - all surrounded by a herd of Elk amidst a Flint Hills backdrop. \$225/night.

ACORNS RESORT
Luxury cabins, lodge rooms, yurts, RV sites, boat rentals, restaurant, office, store, laundry, showers & conference center! Prices vary.

GENERAL HUNTING INFORMATION

HUNTING LICENSES

All resident hunters age 16 through 74 must have a resident hunting license unless exempt. Nonresident hunters, regardless of age, must have a nonresident license. Annual hunting licenses expire one year from the date of purchase. Resident hunters age 65-74 qualify for Senior Pass lifetime hunt/fish combination licenses (\$42.50), senior annual hunting licenses (\$15), or annual hunt/fish combination licenses (\$25). Residents age 16-20 qualify for Youth Multi-year hunting (\$42.50) or hunt/fish combination licenses (\$72.50), which expire the end of the year they turn 21.

A resident is defined as a person who has maintained that person's place of permanent abode in the state for 60 days prior to purchase. Domiciliary intent is required, evidence of which may include where a person votes, pays personal income taxes, or obtains a driver's license. Residency of at least one year is required to purchase lifetime licenses.

Lifetime license holders are considered Kansas residents for hunting permits and tags, even if they no longer live in Kansas.

Hunters may purchase a special license that is valid only on controlled shooting areas.

Nonresidents who are full-time secondary, post-secondary or vocational students at Kansas schools and are living in Kansas may obtain resident hunting licenses and permits but must carry evidence of Kansas student status. They may NOT purchase lifetime licenses.

LICENSE EXEMPTIONS

The following persons are not required to have a hunting license:

- owners of farm or ranch land or tenants of land leased for agriculture, and immediate family members living with resident landowners and resident or nonresident tenants, while hunting or furharvesting on this land;
- legally-defined Native American Kansas residents (may obtain free license, restrictions apply);
- nonresidents using field trial permits issued by KDWP; and
- residents 15 and younger or 75 and older.

YOUTH AND DISABLED SEASONS

Youth 17 and younger are eligible to hunt during specified youth seasons; however, youth 16 and older are NOT eligible for youth-priced permits and must possess a hunting license while hunting (resident youth 15 and younger are not required to have a hunting license). Nonresident youth, regardless of age, must possess a hunting license while hunting. Youth participating in the youth seasons must be under immediate supervision of an adult age 18 or older.

Persons with disabilities, issued a hunt-from-vehicle permit (pursuant to KAR 115-18-4) or current Kansas handicapped identification card may hunt during disabled seasons.

Permitted persons or cardholders (resident or

nonresident) may hunt from a non-moving vehicle with any legal equipment for any species during their season except waterfowl. Licenses and permits/tags are required, if applicable.

Any person with a permanent physical or visual disability that prevents that person from hunting safely, as certified by a physician, may be eligible to obtain a permit to designate someone else to take a legal limit of game for the permit holder (pursuant to KAR 115-18-15). A permit holder who is, because of a disability, unable to pursue a wounded game animal may designate any individual to assist in pursuing and dispatching that animal. For more information, or a disability assistance permit application, contact the KDWP Pratt Operations Office, (620) 672-5911, and ask for Law Enforcement.

NATIONAL GUARD, DISABLED VETERANS

The Kansas Legislature annually allocates funding to provide state park vehicle permits and hunting and fishing licenses to active members of the Kansas National Guard. Funding is also allocated to provide hunting and fishing licenses to honorably discharged resident veterans certified with a service-related disability of 30 percent or more.

MILITARY

Military personnel ARE required to have hunting or furharvesting licenses. Nonresident military personnel not stationed in Kansas must have nonresident licenses. Active-duty members who were Kansas residents immediately prior to enlistment – and their immediate family members living with them – may purchase resident licenses, regardless of duty station.

Active-duty nonresident military personnel stationed in Kansas may hunt or furharvest with resident hunting or furharvesting licenses, if they carry evidence identifying them as active-duty military personnel.

HUNTER EDUCATION

Anyone born on or after July 1, 1957, must complete an approved hunter education course before hunting in Kansas. Anyone under 27 years old must carry their hunter education card while hunting. Students must be at least 11 years old to be certified. Youth 12-15 who have completed hunter education may hunt without adult supervision (except during youth seasons when adult supervision is required regardless of hunter education).

Exceptions include youth 15 and younger who may hunt without hunter education while directly supervised by an adult 18 or older. Anyone 16 or older who has not completed hunter education may purchase up to two apprentice hunting licenses. An apprentice license is valid one year from date of purchase, and the holder must be under the direct supervision of a licensed adult 18 or older when hunting. Hunter education is not required while hunting one's own land.

Kansas resident hunters age 16 and older may receive the required Kansas hunter education certifi-

cation by completing the NRA Complete Online Course, available free of charge. All hunter education delivery options can be viewed at: ksoutdoors.com/Services/Education/Hunter.

Duplicate certificates are provided at no cost at KDWP regional, district and state park offices, online or by calling (620) 672-0773.

TRESPASS

It is illegal to hunt, shoot, or trap on private land without the owner's permission. Hunting from public roads requires permission of the landowner adjacent to the side of the road being hunted. No hunting is allowed from state or federal highways. Railroad rights-of-way require permission from the railroad.

Written permission is required to enter land posted with hunting and/or trapping by "Written Permission Only" signs, or land having trees or fence posts painted purple.

It is illegal and dangerous to mount blinds or treestands on power poles, whether they appear abandoned or not.

GIVING, RECEIVING GAME

Game given to another person must be accompanied by the donor's name, address, license, transaction or permit number, and signature, as well as the date of donation. Contact KDWP for suggested donation form.

SELLING GAME MEAT

It is illegal to sell wild game meat. This includes the sale of game at banquets or charitable events. Furbearer meat may be sold. (See "Disposal," Page 44.)

ILLEGAL ACTIVITIES

THE FOLLOWING ACTIVITIES ARE PROHIBITED:

- using drugs, chemicals, or any chemical compound as part of or in conjunction with broadhead arrows to take game;
- shooting at, killing, or pursuing game from a motorboat, airplane, motor vehicle, or other water, air, or land vehicle unless such person holds a valid handicapped hunting permit; exceptions include hunting waterfowl from a boat with motor shut off or sails furled and progress ceased. Coyotes may be pursued with a vehicle;
- using two-way radios or cell phones in any manner for the purpose of pursuing, chasing, or hunting game animals or furbearing animals, or to give information concerning the location of big game by radio or mechanical means;
- using live decoys;
- using electronic calls, except for hunting coyotes, furbearers, rabbits, hares, squirrels, crows, or light geese during the conservation order;
- throwing or casting the rays of a spotlight, headlight, or other artificial light on any highway, roadway, field, grassland, woodland, or forest for the purpose of spotting, locating, or

GENERAL HUNTING INFORMATION

taking any wildlife species while having in possession any archery, firearms, or other implement whereby wildlife could be taken, **unless hunting coyotes (see Pages 44-45 for restrictions)**. Hand-held, battery-powered flashlights, hat lamps, or hand-held lanterns **may** be used with .17 and .22 rimfire rifles and handguns to take trapped furbearers, trapped coyotes, or furbearers treed by dogs;

- shooting at migratory doves, quail, pheasants, and prairie chickens unless they are in flight; shooting at turkeys unless they are on the ground or in flight; and

- using a drone for hunting, locating wounded or harvested game or taking fish. A drone can be used to scout on land not owned or managed by KDWP. However, hunting is not allowed on the same day the aerial scouting occurs.

NON-TOXIC SHOT

Approved non-toxic shot is required when hunting ducks, geese, mergansers, coots, snipe, rails, gallinules, sandhill cranes and moorhens. Non-toxic shot is required for all shotgun hunting on the following wildlife areas (WA) and national wildlife refuges (NWR):

Benedictine Bottoms WA, Cheyenne Bottoms WA, Cherokee Lowlands WA, Flint Hills NWR, Gurley Salt Marsh WA Herron Playa WA, Isabel Wetlands WA, Jamestown WA, Kirwin NWR, Marais des Cygnes NWR, Marais des Cygnes WA, McPherson Wetlands WA, Neosho WA, Otter Creek WA,

Quivira NWR, Slate Creek WA, Stein Playa WA, Taimo Marsh WA, Texas Lake WA, Wild Turkey Playa WA, and other areas as posted.

WANTON WASTE

Hunters must attempt to find any game crippled or killed. Retrieved animals must be kept until they are eaten, taken to a taxidermist or processor, given away, or transported to the hunter's residence.

SALVAGE OF GAME ANIMALS

Dead game animals and furbearers may be possessed in season with proper licenses and within legal limits. Dead big game animals and wild turkeys may be possessed outside of the season with KDWP salvage tags. Antlers may not be cut off roadkills or found skulls and possessed without this tag.

PRAIRIE DOGS

Kansas residents are not required to have a hunting license to hunt prairie dogs. Nonresidents must have a nonresident hunting license to hunt prairie dogs. They may be hunted statewide and there is no closed season or bag limits. Most prairie dogs are found in the western-most Kansas counties, particularly in the northwest. Nearly all huntable prairie dog towns are located on private land, and access requires landowner permission. The best way to locate prairie dog towns is through satellite images. Once a large town is located, landowner contacts may be found through a rural plat map.

REPTILES/AMPHIBIANS OTHER SPECIES

Kansas residents do not need a hunting license to take moles or gophers. Unless exempt, a hunting license is required to take ground squirrels, woodchucks, kangaroo rats, wood rats, armadillos, porcupines, feral pigeons, starlings, house sparrows, rodents, and certain amphibians and reptiles.

Season is open year-round. There is no possession limit except on amphibians and reptiles – no more than five amphibians (of any species combination) and no more than five reptiles (only two of which may be the same species) are allowed per person or per domicile. The take of bullfrogs, common snapping turtles, and softshell turtles requires a fishing license and is covered under fishing regulations.

(Regulations governing possession limits on amphibians and reptiles may change after this publication is printed. Check ksoutdoors.com for updates on all possession limits before pursuing.)

OFFICER CHECKS

Law enforcement officers may enter fields and lands to check hunting licenses and bag limits. Hunters must be in immediate possession of their licenses and permits or have them stored on a mobile unit in their possession and allow an officer to inspect license and permits, as well as any wildlife in their possession.

NEW FOR 2023-2024

Fall Turkey Season Temporarily Suspended

Due to nationwide declines in population numbers, there is no open fall turkey season in Kansas in 2023.

Spring Turkey Unit 4 Permits

The quota for the Unit 4 draw is 375 permits. Out of these permits, 200 are designated for qualifying resident landowners and tenants and nonresident tenants within Unit 4. The remaining 175 permits are designated for general residents. Unit 4 permits are only valid in Unit 4 only.

Spring Turkey Season Permits and Bag Limits

Due to nationwide declines in population numbers, the statewide permit/bag limit for turkey in Kansas is one bird. No game tags (valid for a second bird) are available for the spring 2024 season.

Nonresident Turkey Permits

A lottery draw system for nonresident and nonresident youth turkey permits will begin with the 2024 spring turkey season. Applications must be made online at gooutdoorskansas.com or by phone at (620) 672-0728. The application period will be from early January to February 9, 2024. Permits are only valid in the unit drawn. Fee prices will be available Jan. 1, 2024 at ksoutdoors.com, gooutdoorskansas.com or by calling (620) 672-0728.

Trail/Game Cameras on Public Lands and WIHA/iWIHA

The use of trail or game cameras is prohibited on all public lands and Walk-in Hunting Access (WIHA) and iWIHA areas.

Baiting Prohibited on Public Lands and WIHA/iWIHA

Baiting, for any purpose other than furharvesting, is prohibited on public lands and Walk-in Hunting Access (WIHA) and iWIHA areas.

Camping on Public Lands

Camping is only allowed for up to seven consecutive days on designated public lands. Persons camping up to the allowance must leave the department-managed area for at least five days before they return to camp again on the same area.

CWD Testing

New testing procedures for Chronic Wasting Disease (CWD) have been established. **See pages 28-29** for details.

Reptile and Amphibian Species Limits

No more than five amphibians (of any species combination) and no more than five reptiles (only two of which may be the same species) are allowed per person or per domicile.

Federal Duck Stamp Now Electronic in Kansas

Beginning in 2023, KDWP offices and license vendors will no longer carry physical Federal Duck Stamps. Interested parties must instead purchase an e-stamp, which authorizes the same privileges as the physical stamp, until a physical copy can be mailed. E-stamps may be saved to the purchaser's smartphone or accessed via the GoOutdoorsKS mobile app. Please allow up to 45 days from the date of purchase to receive a physical stamp.

GENERAL HUNTING INFORMATION

COMMON CONCERNS

BAITING

- Although strongly discouraged for biological reasons, it is LEGAL to bait deer, turkey, and other non-migratory game animals on PRIVATE LANDS.
- Baiting, for any purpose other than furharvesting, is PROHIBITED on Public Lands and Walk-in Hunting Access (WIHA) and iWIHA areas.

DEFINITION OF TAKE

- "Take" means harass, harm, pursue, shoot, wound, kill, molest, trap, capture, collect, catch, possess or otherwise take, or attempt to engage in any such conduct.

DEER

- A hunter may purchase only one antlered deer permit.
- No individual shall copy, reproduce, or possess any hard copy or reproduction of a big game or wild turkey permit or carcass tag. Hunters may possess e-licenses, e-permits and e-tags on a mobile device.
- Harvested big game and turkey must be properly tagged, or e-tag confirmation number obtained, before moving carcass or parts from harvest site.
- No Either-species Antlerless deer permits, which allow the harvest of mule deer does, are available for the 2023-2024 seasons.
- No Whitetail Antlerless Deer permits are valid in Unit 18.

EAGLES, HAWKS, OWLS AND SONGBIRDS ARE PROTECTED

- It is illegal to kill or pursue eagles, hawks, owls, or songbirds, or possess their parts, except by special permit. Call (620) 672-5911 for details.

GAME TRANSPORT

- Pheasants being transported must retain a foot, plumage, or some part that identifies the birds as males.
- Migratory game birds (except mourning/white-winged doves) must have one fully-feathered wing or head attached while in transport.

HOGS

- Feral hogs threaten agricultural crops and native wildlife in several Kansas counties. The state's goal is to eradicate or reduce the feral swine population to the lowest possible level. Sport hunting is not effective at controlling feral hogs and is illegal. Landowners or legal occupants of the land or their employees may shoot feral hogs on their property without a permit. All other persons wishing to shoot feral swine must have a permit issued from the livestock commissioner at the request of the landowner. For more information, call the Kansas Animal Health Division at (785) 296-2326 or USDA Wildlife Services at (785) 537-6855.

HUNTING FROM A VESSEL

- When hunting from a vessel, all boating statutes and regulations apply. See ksoutdoors.com/Boating for a complete list.

PUBLIC LANDS

- Target shooting is allowed only at designated shooting ranges. Off-road vehicle use is allowed only by special permit.

REGULATION CHANGES

- Regulation changes may occur after the *2023-2024 Kansas Hunting & Furharvesting Regulations Summary* has been printed and distributed. Updates will be posted on ksoutdoors.com and the GoOutdoorsKS mobile app when they become available.

ABOUT SOCIAL SECURITY NUMBERS

Federal law – Title 42, United States Code, Section 666(a)(13) – requires that Social Security numbers be collected to help improve the effectiveness of child support enforcement. The SS number is entered into the system upon first purchase of a license or permit by an individual and then the individual is assigned a unique KDWP identification number for use in all subsequent transactions. The SS number is not printed on the license, is not displayed on the vendor's screen when a new license is purchased, and is held in a secure database. Kansas law prohibits persons owing back child support from buying any KDWP issuances.

A tenant is any resident or nonresident who is actively engaged in the agricultural operation of 80 acres or more of Kansas farm ground. **See Page 17 for details.**

LIFETIME LICENSE RESIDENTS ONLY

Hunting, Fishing or Furharvesting

\$502.50 (add \$50 if paying quarterly)

Hunting/Fishing Combination

\$962.50 (add \$89.50 if paying quarterly)

Senior Hunting/Fishing Combination Lifetime Pass

(For residents age 65-74) \$42.50

Kansas Kids' Lifetime Hunting and Fishing License

(For residents age 5 and younger) \$302.50

(For residents age 6-7) \$502.50

ONLINE PERMITS, AUTOMATION

Kansas hunters may purchase over-the-counter game permits online at ksoutdoors.com, through more than 600 license vendors statewide, or by calling (620) 672-5911.

DRONE REGULATIONS

Except for designated areas in several Kansas state parks, drone use is prohibited on KDWP-owned or -managed lands without special permission from the KDWP Secretary.

Within designated operating areas, drones may not be flown over people, structures, campgrounds or beaches.

Drones may not be used for scouting, hunting, locating wounded or harvested game, or taking fish.

CONTACT A GAME WARDEN

Anyone who finds evidence of wildlife crime should contact their local game warden or call Operation Game Thief at 1-877-426-3843. Details of the crime and any other information, such as license tag numbers, dates, and times, should be noted. Calls to Operation Game Thief should be limited to tips and reports of fish and wildlife violations. For all other matters, local game wardens can be contacted through county sheriff offices or by phoning one of the numbers below, for the county in which the matter is located.

Do NOT use these numbers for general information calls. General information may be obtained by phoning the department's Public Affairs Section, (620) 672-5911, calling KDWP offices listed in this publication, or online at www.ksoutdoors.com.

If you're an active outdoorsperson, or just concerned about conservation in your area, get to know your local game warden. They protect the resource in your area. The following list of game warden numbers and the counties for which they are responsible is provided to help concerned citizens curb wildlife crime in Kansas:

County	Officer Phone	County	Officer Phone	County	Officer Phone
Allen	(620) 212-0183	Meade	(620) 388-7790	Rooks	(785) 342-7265

WEAR BLAZE ORANGE

Swinging on game is the number one cause of hunting accidents in Kansas. Studies have shown that wearing **blaze orange** reduces the risk of upland bird hunting accidents.

SAFE HUNTING RULES

1. Treat every gun as if it were loaded.
2. Control the gun's muzzle at all times.
3. Guns not in use should be unloaded and stored with the actions open.
4. Be sure the barrel and action are clear of obstructions and that only the proper ammunition is carried.
5. Never point a gun at anything you don't want to shoot.
6. Be sure of your target before you pull the trigger, and always know what is beyond the target.
7. Never climb a fence or tree or cross an obstacle with a loaded gun, and never pull a gun toward you by the muzzle.
8. Never shoot at water or a flat, hard surface.
9. Store guns and ammunition separately, out of reach of people unfamiliar with safe gun handling.
10. NEVER handle a firearm or attempt to hunt while you are affected by alcohol or drugs.

GAME BIRDS

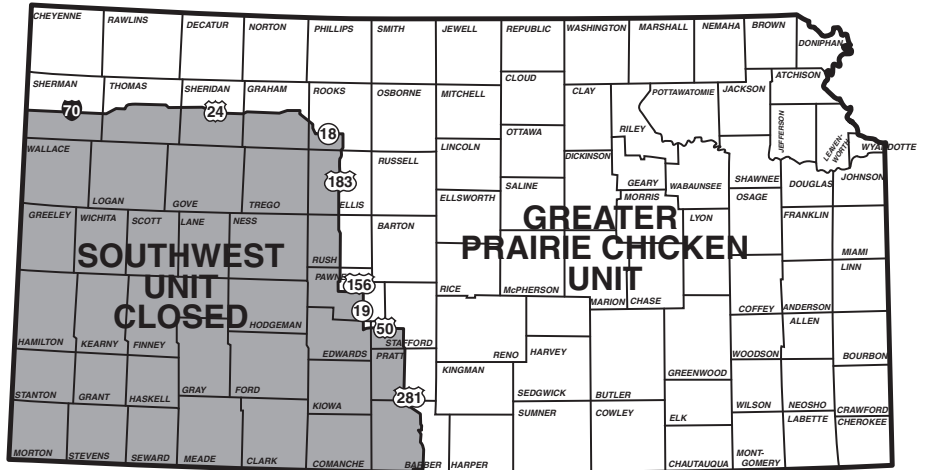

PHEASANT

Season: Nov. 11, 2023-Jan. 31, 2024
Youth Season (17 or younger): Nov. 4-5, 2023
Area Open: Statewide
Daily Bag Limit: 4 cocks (4 in youth season) Pheasants must retain intact a foot or plumage that will readily identify sex while being transported.

QUAIL (BOBWHITE, SCALED)

Season: Nov. 11, 2023-Jan. 31, 2024
Youth Season (17 or younger): Nov. 4-5, 2023
Area Open: Statewide
Daily Bag Limit: 8, single species or in combination (8 in youth season)

GREATER PRAIRIE CHICKEN UNIT

GREATER PRAIRIE CHICKEN

Season (Greater Prairie Chicken Unit): Sept. 15, 2023 - Jan. 31, 2024 (See map)
Daily Bag Limit: 2
Southwest Unit: CLOSED TO PRAIRIE CHICKEN HUNTING
Greater prairie chicken hunters must purchase a \$2.50 prairie chicken permit before hunting. The permit will allow a random sample of permit holders to be surveyed after the season to assess hunting activity and success. Survey data helps KDWP biologists determine harvest estimates and distributions.

SMALL GAME

Methods Of Take: Shotguns no larger than 10 gauge with shot only; centerfire, rimfire rifles and handguns (fully automatic weapons illegal); muzzleloading shotguns, rifles, and pistols; cap and ball pistols; pellet guns; BB guns; bows and crossbows; sling shots (not legal for crow); falconry; lures, decoys except live decoys, and calls, including electric calls.

Box traps are legal for rabbits during legal shooting hours, except that they are legal 24 hours a day March 1 - Nov. 1.

Shooting Hours: One-half hour before sunrise to sunset.

SQUIRREL (GRAY, FOX)

Season: June 1, 2023 - Feb. 28, 2024
Area Open: Statewide
Limit: Daily bag limit: 5
Possession Limit: 20

RABBIT/HARE (COTTONTAIL, JACKRABBIT)

Season: All year
Area Open: Statewide
Limit: Daily bag limit: 10
Possession Limit: 40

TURKEY

GENERAL INFORMATION

Dogs may NOT be used while hunting turkeys during the turkey season.

Turkey permits are not transferable.

Turkeys may be shot only while they are on the ground or in flight; it is illegal to shoot turkeys roosting in trees.

Permits are valid immediately after purchase.

Turkey permits are valid only in units designated on permit. (See unit map below.)

A valid Kansas hunting license is required in addition to a permit, unless exempt by law.

2024 SPRING TURKEY SEASONS

Youth/Disabled Season (Youth 17 or younger): April 1-16, 2024

Archery Season: April 8-16, 2024

Regular Season: April 17 - May 31, 2024

Shooting Hours: One-half hour before sunrise to sunset.

Legal Equipment: Shotguns and handguns using shot sizes 2-9; long, recurve or compound bows and crossbows.

Permit Limit: 1

Bag Limit: One turkey with a visible beard per permit.

LEGAL EQUIPMENT

Legal equipment includes shoulder-mounted shotguns and choked handguns with a minimum barrel length of 10 inches, shotguns using shot sizes 2-9, longbows, recurve bows, compound bows, and crossbows. No bow, crossbow or arrow may have any electronic device attached that controls the flight of the arrow. Devices that may be attached to a bow or arrow shall include lighted pin, dot or holographic sights; illuminated nocks; rangefinders; film or video cameras; and radio-frequency location devices; and draw-lock devices. Range-finding devices and optical scopes or sights that project no visible light toward the target and do not electronically amplify visible or infrared light may be used. Arrows used for hunting turkeys must be equipped with broadhead points that cannot pass through a ring 3/4-inch in diameter when fully expanded. Non-broadhead arrows may be possessed while hunting but may not be used to take wild turkeys. Devices capable of dispensing chemicals to take big game animals may not be used.

Youth and disabled permit holders may use any legal equipment during the youth/disabled season and archery season. See Page 6 for youth and disabled qualifications.

TRANSPORTING TURKEY

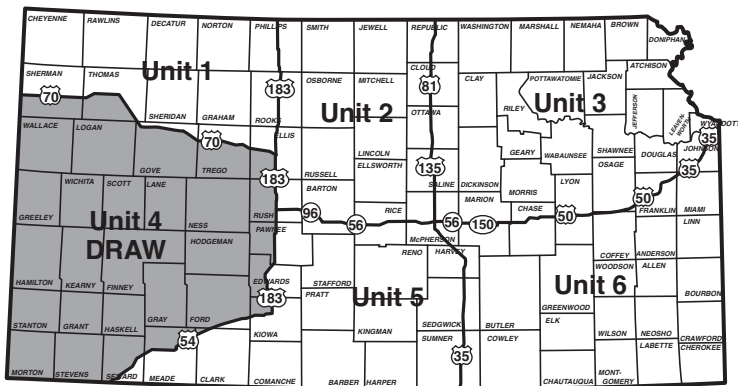

Harvested turkeys must be transported with the beard attached unless an e-tag is used or the turkey is registered online. Online registration is not required unless a hunter wants to transport their turkey without the beard attached to the breast. Once a hunter has the photographs necessary for registration or a confirmation number is obtained online, the hunter may then transport the carcass without proof of sex attached. For instructions on this process, go to "Harvest Reporting" on GoOutdoorsKansas.com or the GoOutdoors Kansas mobile app.

UNIT 4 (DRAW) APPLICATIONS

UNIT 4 PERMITS (Residents Only)

Applications can be made at GoOutdoorsKansas.com. Spring turkey permits for Unit 4 are issued through a lottery draw. The 375 Unit 4 permits issued are not valid in additional units; see permit for details. Out of these permits, 200 are reserved for resident landowner/tenants and nonresident tenants in Unit 4. **Applications for Unit 4 permits must be received online at gooutdoorskansas.com or by phone at (620) 672-5911 no later than Feb. 9, 2024.**

TURKEY UNITS

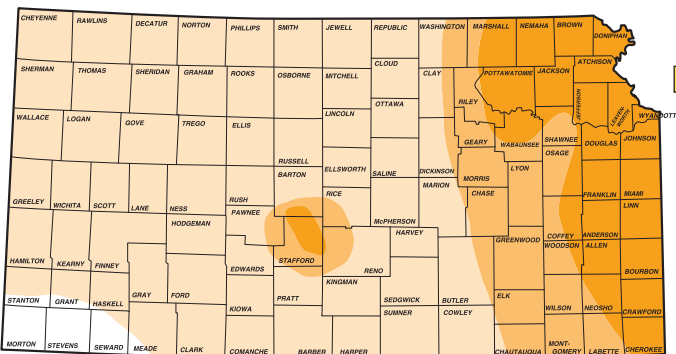

NONRESIDENT (DRAW) APPLICATIONS

NONRESIDENT PERMITS (Draw Only)

Applications can be made at GoOutdoorsKansas.com. Nonresident and nonresident youth spring turkey permits for Units 1, 2, 3, 5 and 6 are issued through a lottery draw. Permits are only valid in the unit drawn. **Applications for nonresident and nonresident youth permits must be received online at: GoOutdoorsKansas.com, the mobile app or by phone at (620) 672-5911 no later than Feb. 9, 2024.**

General Nonresident: TBD*
Nonresident Tenant: TBD*
Nonresident Youth: TBD*

Resident Unit 4 permit fees include a \$7.50 nonrefundable application fee that is charged at the time of application. After the draw, successful applicants will be charged the remaining permit fees due. Unsuccessful applicants will be issued a preference point for next year's draw, using the nonrefundable application fee and will not be charged the remaining permit fees.

A preference point can be purchased online without permit application; Only one preference point may be obtained per year.

***Nonresident permit and application fees were not available at the time this publication was printed. Please check ksoutdoors.com after Jan 1, 2024 for a complete list of fees.**

DISTANCES FROM WICHITA

The following is a list of east and west distances from Wichita of a few cities. These distances are approximate and should serve as a frame of reference for hunters statewide. Check a Kansas highway map for more detailed information.

Cities East of WichitaDistance

Junction City, El Dorado27 miles
Manhattan39 miles
Emporia62 miles
Topeka85 miles
Pittsburg142 miles

Cities West of WichitaDistance

Pratt, Great Bend78 miles
Greensburg, Hays110 miles
Dodge City148 miles
Garden City, Liberal, Oakley198 miles

POST-HARVEST INSTRUCTIONS

At the time of purchase, hunters will have the option of paper carcass tags or mobile/E-tag.

PAPER TAGS: Sign PERMIT prior to hunting to validate it. After an animal is harvested, the CARCASS TAG must be signed, dated and attached to the animal in a visible manner before the carcass is moved from the harvest site.

Paper permits and tags purchased through the internet must be printed on a desktop printer at the time of purchase. To protect the non-waterproof paper tag, cut it from the permit, place in a clear plastic bag and attach it to the animal with a zip-tie or other secure manner.

The carcass tag must remain attached to the animal during transport and kept with the meat until it is consumed, given to another or otherwise disposed.

Hunters using paper tags can complete a voluntary harvest report of turkey or big game animal if they wish to "bone-out" in the field. For instructions on this process, go to "Harvest Reporting" on GoOutdoorsKansas.com or the mobile app.

MOBILE/E-TAGS: Hunters who choose e-tags at time of purchase will keep permit and tags on their mobile device through the GoOutdoorsKS mobile app. After harvest, open the "GoOutdoorsKS" mobile app and follow the instructions on the app for the e-tag appropriate for the species/sex of harvest. An e-tag confirmation number will work the same as harvest reporting for a hunter wanting to bone out an animal and transport only meat from harvest site.

SURVEYS: Hunters may be asked to complete online harvest surveys at the end of the season. Information received helps biologists make decisions to manage healthy game populations. A random sample of hunters will be contacted, making it important for update your address information each year when purchasing permits and tags. Hunters surveyed will receive an email or a postcard with a link to an online survey. Questions about the surveys or assistance in completing surveys may be obtained through the KDWP Research and Survey Office, (620) 342- 0658. State law (K.S.A. 32-937) requires hunters receiving a harvest report card to complete the survey.

SUNRISE/SUNSET TABLE

WICHITA SUNRISE-SUNSET TABLE Central Daylight and Standard Time*

For each 15 miles west of Wichita, ADD one minute; for each 15 miles east of Wichita, SUBTRACT one minute. *Times change from daylight savings to standard Nov. 5, 2023, and back to daylight savings time on March 10, 2024.

BIG GAME

- Big game and turkey permits purchased during the open season are valid immediately after purchase.
- Deer hunters may purchase only one permit that allows the harvest of an antlered deer.
- **Permits are not transferable.**
- Shooting hours for big game are 1/2 hour before sunrise to 1/2 hour after sunset.

LICENSE REQUIREMENTS

All individuals, regardless of land ownership and age, must possess valid permits or tags to hunt big game or turkeys. In addition, a valid Kansas hunting license is required unless exempt by Kansas law (See "License Exemptions" on **Page 6**). There is no minimum age to hunt big game. Permits and tags may restrict hunting to specific species and unit(s) or zone boundaries listed on the permit. Consult boundary maps included in this brochure before hunting.

REPLACEMENT PERMITS

No individual shall copy, reproduce, or possess any hard copy or reproduction of a big game or wild turkey permit or carcass tag. Hunters may possess e-licenses, e-permits and e-tags on a mobile device. In the event of loss or theft, replacement big game permits and turkey permits may be obtained from any KDWP office, license agent for the fee of \$2.50. Duplicate permits may be obtained online at no charge. If you harvest any big game or turkey that is not edible, a replacement permit will not be issued.

REFUNDS

Permit refunds can be issued for the following reasons: (1) death of the applicant prior to season of use; (2) medical emergency or illness of permittee or an immediate family member preventing permittee from participating in the activity for which the permit was issued, prior to season of use; (3) permit was issued in error by the department; (4) armed forces personnel experiencing a change of duty station prior to the first day of season, preventing use of the permit; or (5) in the instance of a catastrophic disaster; natural or unnatural, declaration of war or police action, that prevents the permittee from participating in the activity for which the permit was issued. **KDWP will not issue a hunting license refund for non-resident applicants who were unsuccessful in a lottery or application draw.**

TRANSPORTING BIG GAME

Deer and elk taken with an antlerless-only permit must be transported with the visible sex organs naturally attached to the carcass or a quartered portion of the carcass. However, hunters who want to bone out the meat in the field may use an e-tag or the voluntary online registration option that allows hunters to register their harvested deer or elk

using photos taken at the harvest site; then transport without evidence of sex. This is not a telephone check system and it is not required unless a hunter wants to transport their deer or elk (taken with an antlerless permit) without the head attached. Once a hunter has the photographs necessary for registration or a confirmation number obtained online, the hunter may then transport the carcass without proof of sex attached. For instructions on this process, go to "Harvest Reporting" on GoOutdoorsKansas.com or the mobile app.

HUNT-OWN-LAND PERMITS

These permits shall be valid only on lands owned or lands leased for agricultural purposes. See **Page 17** for complete definitions of who qualifies for these permits.

ASSISTANCE TO BIG GAME PERMIT HOLDERS

A Kansas hunting license is required (unless exempt by Kansas law) to herd or drive big game and wild turkeys for a permit holder. Any person with a permanent physical or visual disability that prevents the person from hunting safely, as certified by a physician, may be eligible to obtain a permit to designate someone else to take a legal limit of game for the permit holder. A permit holder who is, because of disability, unable to pursue a wounded game animal may designate any individual to assist in pursuing and dispatching an animal wounded by the disabled permit holder. For more information, or for a disabled assistance application, contact the KDWP Pratt Operations Office, (620) 672-5911, and ask for Law Enforcement.

ANTLERLESS-ONLY HUNTERS

Hunters must have a deer permit that allows the taking of an antlered deer before acquiring an antlerless deer permit. However, after Dec. 30, an antlered permit is no longer required to purchase antlerless permits, which are available over-the-counter through Jan. 31, 2023.

BLINDS, STANDS, TRAIL CAMERAS & BAITING ON PUBLIC LANDS AND IWIHA/WIHA

Blinds and stands may be used on department lands, subject to posted requirements and under the following conditions: (1) stands may not be placed more than 14 days prior to the season and shall be removed within 14 days of the close of the season; (2) ladders, screw-in metal steps, and steps attached by ropes, cables, or chains may be used to access stands and must be removed with the stand; (3) natural blinds may be used and shall be constructed of natural herbaceous materials or woody debris present on site; (4) any per-

son may use these stands if not occupied; (5) only two portable blinds or stands per department-owned or managed area are allowed per hunter; (6) portable blinds and stands must be marked with the owner's name and address or KDWP number; (7) portable blinds may not be left unattended overnight; and (8) any stand not conforming to the requirements may be removed or destroyed by department staff.

Trail or game cameras, and baiting, are prohibited on public lands and Walk-in Hunting Access (WIHA) and iWIHA areas.

LOCATING BIG GAME ANIMALS WITH DOGS

Dogs may be used to locate dead or wounded big game animals with the following restrictions: each dog shall be maintained on a hand-held leash at all times; an individual tracking big game animals outside of legal shooting hours shall not carry equipment capable of harvesting the big game animal; and each individual harvesting a big game animal shall be limited to the equipment type for the permit and season that is authorized. Each individual participating in the tracking of a big game animal shall have a hunting license, unless the individual is exempt by law. To find individuals with trained blood tracking dogs, go to www.unitedbloodtrackers.org.

MILITARY INFORMATION

Smoky Hill ANG Range

Hunting on Smoky Hill ANG Range is open only to military and retired military personnel who have attended a training class and who possess a deer permit valid in Unit 4.

Fort Riley

Hunters with valid unit permits must possess a limited access permit to hunt on Fort Riley. For season dates, fact sheets and more, call (785) 239-6211 or visit www.fortriley.isportsman.net. Fort Riley military reservation or portions of it may be closed at any time, without prior notice, due to military activities. The military mission has precedence over the announced hunting seasons. All hunters are required to register their firearms prior to hunting on the military reservation, and are required to check-in/out.

Fort Leavenworth

Deer hunting at Fort Leavenworth is open only to military and retired military personnel who have attended a training class and who possess a deer permit valid in Unit 10. For more information, contact the post hunting coordinator at (913) 684-1703.

Fort Leavenworth military installation, which is adjacent to the Unit 19 deer unit boundary, has been declared an urban deer unit. Unit 19 deer season dates apply to hunters hunting on the military installation. As many as five Antlerless-only Whitetail Deer permits for Unit 10A may be purchased for use on Fort Leavenworth.

BIG GAME

LEGAL EQUIPMENT

Firearm permit holders may hunt with any legal equipment during the firearm season. Muzzleloader permit holders may only hunt with muzzleloading or archery equipment during the muzzleloader and firearm seasons. Archery permit holders may only use archery equipment during the archery season, even during days that overlap the muzzleloader or regular firearm season.

FIREARMS

Legal firearms include centerfire rifles and handguns that are not fully automatic, using only hard-cast solid lead, soft point, hollow point, tumble-on-impact, or other expanding bullets; any gauge shotgun using only slugs.

MUZZLELOADERS

Legal muzzleloaders include rifles, pistols or muskets that are loaded, with a single bullet only, through the front of the firing chamber. Bullet diameter must be .40 inches or larger. Muzzleloaders must use hard-cast solid lead, conical lead, sabot, or tumble-on-impact bullets.

ARCHERY

Legal archery equipment includes longbows, recurve bows, compound bows and crossbows. No bow, crossbow or arrow may have any electronic device attached that controls the flight of the arrow. Devices that may be attached to a bow or arrow shall include lighted pin, dot or holographic sights; illuminated nocks; rangefinders; film or video cameras; radio-frequency location devices; and draw-lock devices. Arrows used for hunting big game must be equipped with broadhead points that when fully expanded cannot pass through a ring 3/4-inch in diameter. Non-broadhead arrows may be possessed while hunting but may not be used to take big game. Devices capable of dispensing chemicals may not be used.

ACCESSORY EQUIPMENT

Lures, decoys and non-electric calls may be used while hunting big game. Hunters may use blinds and stands. Range-finding devices and optical scopes or sights that project no visible light toward the target and do not electronically amplify visible or infrared light may be used. Horses and mules shall not be used for herding or driving big game. Firearm report-suppression devices may be used with proper permits. Handguns may be possessed during all big game seasons. However, only handguns specified as legal equipment for firearms or muzzleloader seasons may be used for big game hunting.

Ethical hunters select equipment most effective for their capabilities, the game they hunt and the style of hunting they prefer. Hunters should consider muzzle velocity, kinetic energy, bullet type, recoil and accuracy when selecting equipment that is adequate for the game hunted.

Shooting Hours:
One-half hour before sunrise to
1/2 hour after sunset.

PERMIT CLASSES

RESIDENT

A resident is defined as any person who has continuously lived in Kansas for 60 days immediately preceding the person's application for a hunting license or permit. Members of the armed services on active duty who were Kansas residents at the time of entering the service, and immediate family members living with them, are considered residents regardless of duty station. Members of the armed services on active duty and officially stationed in Kansas may purchase resident licenses and permits, except for lifetime licenses. Any holder of a Kansas lifetime hunting license who has moved from the state may apply for permits as a resident. Any person who is a registered full-time student in residence at a public or private secondary, post secondary, or vocational school located in Kansas may purchase resident licenses and permits, except lifetime licenses. While hunting, the student must carry evidence of being a full-time student residing in Kansas. Proof of residency (i.e. State-issued driver's license) is required to be defined as a resident.

NONRESIDENT

Anyone who doesn't qualify in the definitions above.

YOUTH

Resident and nonresident youth who are 15 and younger qualify for reduced price youth big game permits.

LANDOWNER/TENANT

A landowner is any resident who owns 80 acres or more of Kansas farm or ranch land. When applying for a landowner/tenant permit, land owned must be in the unit applying for. Land deeded as an LLC does not qualify individuals for landowner permits.

A tenant is any resident or nonresident who is actively engaged in the agricultural operation of 80 acres or more of Kansas farm or ranch land for the purpose of producing agricultural commodities or livestock and (A) has a substantial financial investment in the production of agricultural commodities or livestock on such farm or ranch land and the potential to realize substantial financial benefit from such production or, (B) is a bona fide manager having an overall responsibility to direct, supervise and conduct such agricultural operation and have the potential to realize substantial benefit from such production in the form of salary, shares of such production or some other economic incentive based upon such production. Evidence of tenancy, if requested, shall be provided to the department and may include, but is not limited to, Natural Resource Conservation Service records, Farm Service Agency records, or written agricultural contract or lease documentation. Land must be in the unit applied for to qualify.

Nonresident tenant permits are available for any opportunity afforded resident tenants. A nonresident landowner is not eligible for a tenant-only permit based on land that is owned. One cannot be both a landowner and tenant of the same property.

Members of the immediate family who are domiciled with a resident landowner or tenant may apply for a resident big game permit as landowners or as a tenants, but at least 80 acres must be owned by such landowner or operated by such tenant for each individual applying as a landowner or as a tenant.

HUNT-YOUR-OWN-LAND

Hunt-Your-Own-Land permits are valid during any season with equipment legal for that season, and only on lands owned and operated for agricultural purposes. This permit is available to individuals who qualify as landowners, tenants or nonresident landowners.

NONRESIDENT LANDOWNER

A nonresident landowner is any nonresident who owns 80 acres or more of Kansas farm or ranch land. To qualify as a nonresident landowner, a person must own farm or ranch land in simple ownership with their name on the deed. Property held in a trust, LLC, partnership, or other legal entity is owned by that legal entity. Permits on properties owned by a legal entity are available only to tenants who either farm at least 80 acres, or manage an 80 acre or larger farm that produces an agricultural commodity such as crops or cattle. Serving as a board member, trustee, non managing partner or other such position does not qualify a person for a Kansas landowner deer permit. For details, phone (620) 672-5911 and ask for Law Enforcement.

DEER

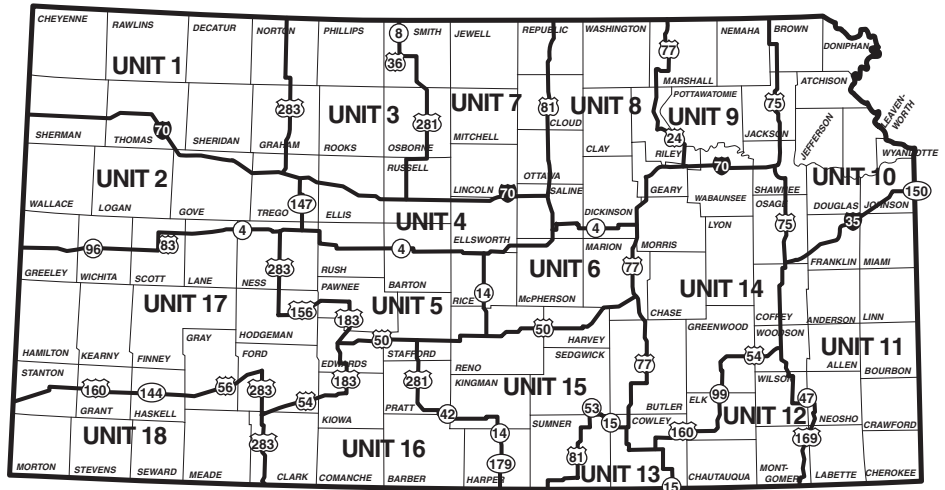

KANSAS DEER MANAGEMENT

Harvesting female deer is the most effective way to control deer where deer numbers exceed people's tolerance due to damages or disturbances they may cause. Hunting may also be used to control deer problems and maintain a population that habitat supports.

Deer adapt to hunting pressure and find areas where they can evade hunters. In some cases, those areas are created because a particular landowner desires to restrict or prohibit hunter access. Protected areas serve as refuges and may result in future herd increases and higher deer damage on adjacent or other properties where protected deer spend time when hunting season is closed.

Landowners have several options for controlling deer on their property: 1) allow or increase hunting; 2) encourage hunters to harvest antlerless deer; 3) contact KDWP at (620) 672-5911 for the hunter referral list; or 4) apply for deer control permits that may be used when damage occurs while normal hunting seasons are closed.

DEER MANAGEMENT UNITS

BLAZE ORANGE REQUIRED

All deer hunters and persons assisting them must wear **blaze orange** during an open firearm or muzzleloader season. An orange hat or other garment upon the head and at least 200 square inches of **blaze orange** is required. Of this, 100 square inches must be visible from the front and 100 square inches must be visible from the back on the upper half of the body. Camouflage orange providing the required blaze orange is legal.

LEGAL DEFINITIONS

White-tailed Either-sex Deer: any buck, doe, or fawn white-tailed deer.

Either-species/Either-sex Deer: any buck, doe, or fawn white-tailed or mule deer.

Antlerless-Only White-tailed Deer: any white-tailed deer without a visible antler plainly protruding from the skull.

Antlerless-only Deer: any white-tailed or mule deer without a visible antler plainly protruding from the skull.

SEASONS

Youth (17 or younger) / Disabled: Sept. 2-10, 2023

Muzzleloader: Sept. 11-24, 2023

Archery: Sept. 11-Dec. 31, 2023

Pre-rut Whitetail Antlerless Firearm: Oct. 7-9, 2023

Extended Pre-rut Whitetail Antlerless Firearm Unit 12 Only: Oct. 10-15, 2023

Regular Firearm: Nov. 29 - Dec. 10, 2023

Extended Firearm Whitetail Antlerless-only: Jan. 1-7, 2024 Units 6, 8, 9, 10, 17 (Map Page 20)

Extended Firearm Whitetail Antlerless-only: Jan. 1-14, 2024 Units 1, 2, 3, 4, 5, 7, 11, 14 and 16

Special Extended Firearm Whitetail Antlerless-only: Jan. 1-21, 2024 Units 10A, 12, 13, 15 and 19

Extended Archery Whitetail Antlerless-only: Jan. 22-31, 2024 Units 19 and 10A. (Map Page 19)

DRAW APPLICATIONS (RESIDENT/NONRESIDENT)

Resident Firearm Either-Species/Either-Sex, Nonresident Muzzleloader White-tailed Deer Combo, Nonresident Archery White-tailed Deer Combo and Nonresident Firearm White-tailed Deer Combo permits are available through lottery draw only. **Applications must be made online at GoOutdoorsKansas.com.** Applications include a nonrefundable \$12.50 application fee for residents and \$27.50 application fee for nonresidents, charged at the time of application. After the draw, successful applicants will be charged any remaining permit fees. Unsuccessful applicants will be issued a preference point for the next year's draw using the nonrefundable application fee and will not be charged the remaining permit fee. A preference point can be purchased without permit application. Only one preference point may be obtained per year. The application deadline for Resident Firearm Either-species/Either-sex permits is **June 14, 2024**. The application deadline for all nonresident permits is **April 26, 2024**.

MILITARY BASE DEER SEASONS

Fort Leavenworth Firearm: Nov. 11-12, Nov. 18-19, Nov. 23-26, Dec. 2-3, and Dec. 9-10, 2023

Fort Leavenworth Extended Firearm: Jan. 1-21, 2024

Fort Leavenworth Extended Archery: Jan. 22-31, 2024

Smoky Hill Air National Guard Firearm: Nov. 29 - Dec. 10, 2023

Fort Riley Firearm: Dec. 16-23, 2023

Fort Riley Whitetail Antlerless-only Firearm: Oct. 7-9, Nov. 24-26, 2023 and Jan. 1-7, 2024

Fort Riley Archery: Sept. 11 - Dec. 31, 2023

Fort Riley Youth/Disabled: Sept. 2-10, 2023

DEER

SEASON DESCRIPTIONS 2023

YOUTH AND DISABLED (Sept. 2-10)

Youth 17 and younger, who possess a valid deer permit, may hunt during this special firearm deer season — using equipment listed on permit — only while under the immediate supervision of an adult 18 or older. Any person who possesses a valid deer permit and has a permit to hunt from a vehicle may also hunt during this season. All resident and nonresident permits are valid, and equipment restrictions designated on permits apply. Hunter orange required. See **Page 6** for youth and disabled qualifications.

MUZZLELOADER (Sept. 11-24)

The following permits may be used during this season in units specified on permit, using muzzleloader or archery equipment: resident or nonresident Muzzleloader Either-species/Either-sex permit, resident Any-Season White-tailed Deer permit, nonresident Muzzleloader White-tailed Deer permit, Hunt-Own-Land permit, Special Hunt-Own-Land permit, and Whitetail Antlerless Only Deer permit. Hunter orange required.

ARCHERY (Sept. 11-Dec. 31)

The following permits may be used during this season in units specified on permit, using archery equipment only: resident or nonresident Archery Either-species/Either-sex permit, resident Any-Season White-tailed Deer permit, nonresident Archery White-tailed Deer permit, Hunt-Own-Land permit, Special Hunt-Own-Land permit, and Whitetail Antlerless-only permit. Resident archery Either-species/Either-sex permits are valid statewide; nonresident archery permits are valid in up to two deer management units listed on permit. Unfilled 2023 permits may be used in the DMU 19 extended archery season for antlerless whitetails. Hunter orange clothing is required during dates of open muzzleloader and firearm deer seasons.

PRE-RUT FIREARM WHITETAIL ANTLERLESS (Oct. 7-9)

Any permit that allows the harvest of a white-tailed antlerless deer is valid during this season. Equipment and unit restrictions on permit imposed. Hunter orange clothing is required.

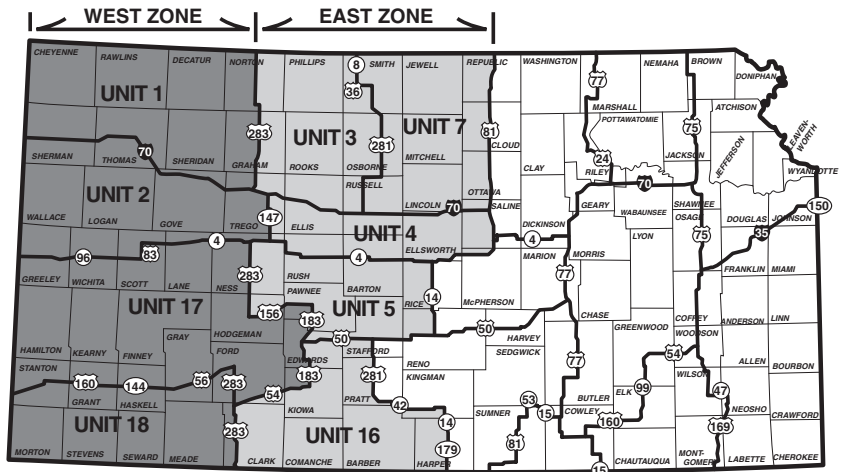

EXTENDED PRE-RUT FIREARM WHITETAIL ANTLERLESS UNIT 12 Only (Oct. 10-15)

Any permit that allows the harvest of a white-tailed antlerless deer in Unit 12 is valid during this season. Equipment and unit restrictions on permit apply. Hunter orange clothing is required.

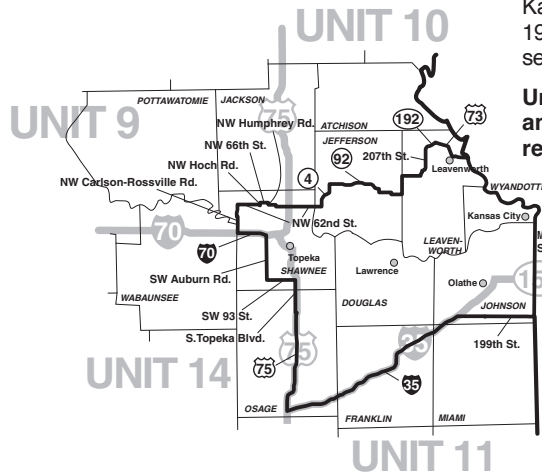

REGULAR FIREARM (Nov. 29-Dec. 10)

The following permits may be used during this season in units specified on permit: resident or nonresident Muzzleloader Either-species/Either-sex permit (muzzleloader, archery equipment), nonresident Muzzleloader White-tailed Deer permit (muzzleloading, archery equipment only), resident Any-Season White-tailed Deer permit (statewide), nonresident Firearm White-tailed Deer permit, Hunt-Own-Land permit, Special Hunt-Own-Land permit, and Whitetail Antlerless Only permit. Hunter orange clothing is required. (The archery season remains open, but archery permit holders may only hunt with archery equipment and must wear hunter orange.)

EITHER-SPECIES/ EITHER-SEX ZONES (RESIDENT)

URBAN DEER MANAGEMENT UNITS 19 & 10A

Urban deer management units were created to increase harvest in the Kansas City-to-Topeka corridor. Unit 19 will host an extended archery season (Jan. 22-31, 2024).

Unit 10A is Fort Leavenworth and is open to active and retired military staff only.

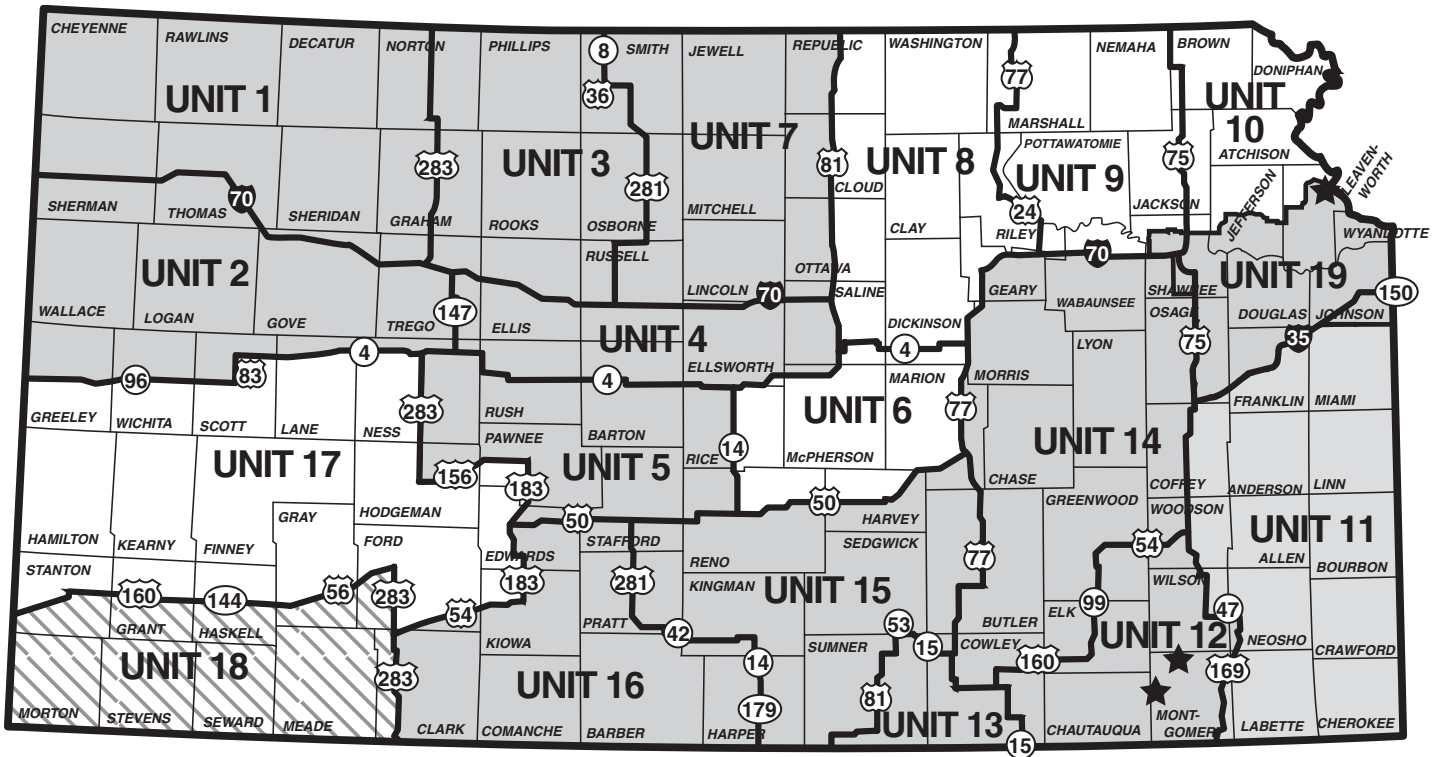

All properties owned or managed by KDWP, except iWIHA/WIHA areas, are excluded from Unit 19. These properties are open only under their original unit. For example, Clinton Wildlife Area and Douglas State Fishing Lake are open only during Unit 10 seasons.

WHO MAY HUNT IN UNIT 19

- Unit 9, 10, 11, and 14 permit holders, with permit season and equipment restrictions.
- Archery permit holders during the regular archery season; the Extended Firearm Whitetail Antlerless-only season, Jan. 1-21, 2024; and the Extended Archery Whitetail Antlerless-only season, Jan. 22-31, 2024. Hunter orange is required of all deer hunters during any firearm season. State-owned and state-managed lands, excluding iWIHA/WIHA, are not included in Unit 19.
- Holders of Hunt-Own-Land permits valid in Unit 19, during any season with legal equipment.
- Holders of Whitetail Antlerless-only permits, during any season with legal equipment.
- Holders of Any-season/Either-sex Whitetail permits, during any season with legal equipment.

DEER

WHITETAIL ANTLERLESS ONLY UNITS

NO WAO Permits

1 WAO Permit

5 WAO Permits

★ Valid Public Wildlife Areas

EXTENDED WHITETAIL ANTLERLESS ONLY (WAO) SEASONS

EXTENDED FIREARM WHITETAIL ANTLERLESS ONLY

Jan. 1-7, 2024 (DMU 6, 8, 9, 10, and 17)

Jan. 1-14, 2024 (DMU 1, 2, 3, 4, 5, 7, 11, 14 and 16)

Jan. 1-21, 2024 (DMU 10A, 12, 13, 15 and 19)

Any unfilled 2023 deer permit valid in units open may be used during the extended whitetail antlerless-only seasons. Resident Either-species/Either-sex permits valid for the East or West zones are valid for an antlerless white-tailed deer only in units listed on the permit.

Any legal equipment may be used to take a white-tailed deer without a visible antler plainly protruding from its skull during the extended season. A valid Kansas hunting license is required, unless exempt by Kansas law. Hunter orange clothing is required.

EXTENDED ARCHERY WHITETAIL ANTLERLESS ONLY

(DMU 10A and 19) (Jan. 22-31, 2024)

The following unfilled permits are valid during this season using archery equipment only for antlerless whitetails. Resident and non-resident Archery Either-species/Either-sex permit, nonresident Archery White-tailed Deer permit, resident Any-Season White-tailed Deer permit, Hunt-Own-Land Permit valid within units 19 and 10A, Special Hunt-Own-Land permit valid within units 19 and 10A, and Whitetail Antlerless Only Deer permit. A valid hunting license is required, unless exempt by Kansas law. Unit 10A is Ft. Leavenworth and is open only to active and retired military staff.

The FIRST Whitetail Antlerless Only (WAO) permit purchased is valid statewide, including Walk-in Hunting Access (WIHA) and WIHA areas, except DMU 18.

Up to four additional WAO permits may be purchased and are valid in Units 1-5, 7, 11-16, and 19; and on private land with permission.

TRANSFERRING FISH OR GAME TO ANOTHER PERSON

STAY LEGAL. MAKE SURE YOU PROVIDE THE FOLLOWING INFORMATION WITH EACH TRANSFER.

- Hunting/fishing license, transaction, or big game permit number*
- Person Giving Fish/Game
- Person Receiving Fish/Game
- Date Taken
- Date Transferred
- Fish/Game Type and Quantity
- Signature of Giver
- Address of Giver

*A HUNTER EDUCATION CARD NUMBER OR DATE OF BIRTH MAY BE SUBSTITUTED FOR A HUNTING LICENSE NUMBER FOR HUNTERS UNDER 16 YEARS OF AGE.

DEER

PERMIT DESCRIPTIONS (Hunting restricted to units listed on permits.)

RESIDENT ANY-SEASON WHITE-TAILED DEER

Bag limit: One (1) buck, doe, or fawn white-tailed deer

Any-season White-tailed Deer permits are valid statewide in any season with equipment legal for that season. Available over the counter through **Dec. 31** to residents and landowner/tenants only.

RESIDENT FIREARM EITHER-SPECIES/EITHER-SEX (application online only)

Bag limit: One (1) buck, doe, or fawn white-tailed or mule deer

Firearm Either-species/Either-sex Deer permits are valid either in the West Zone or in the East Zone (see map on **Page 19**) during the regular firearm season using any legal equipment. Available to residents and landowner/tenants by draw only (deadline to apply is **June 14, 2024**).

RESIDENT MUZZLELOADER EITHER-SPECIES/EITHER-SEX

Bag limit: One (1) buck, doe, or fawn white-tailed or mule deer

Muzzleloader Either-species/Either-sex Deer permits are valid either in the West Zone or in the East Zone (see map on **Page 19**) during the muzzleloader-only and regular firearm seasons using muzzleloading or archery equipment. Available over the counter through **Dec. 31** to residents and landowner/tenants only.

RESIDENT ARCHERY EITHER-SPECIES/EITHER-SEX

Bag limit: One (1) buck, doe, or fawn white-tailed or mule deer

Resident Archery Either-species/Either-sex Deer permits are valid statewide with archery equipment during archery season. Available over the counter through **Dec. 31** to residents and landowner/tenants only.

NONRESIDENT MUZZLELOADER WHITE-TAILED DEER COMBO (application online only)

Bag limit: One (1) buck, doe, or fawn white-tailed deer AND one (1) white-tailed antlerless deer

Nonresident Muzzleloader White-tailed Deer Combo permits are available by draw only (deadline to apply is **April 26, 2024**) and are valid in two adjacent units listed on permit during the muzzleloader-only and regular firearm seasons. Nonresidents receiving a Muzzleloader White-tailed Deer permit in Deer Management Unit 1, 2, 3, 4, 5, 7, 17 or 18 may also apply for one of a limited number of Mule Deer Stamps. If drawn, their permit becomes a Nonresident Muzzleloader Either-species/Either-sex permit with a bag limit of one (1) buck, doe, or fawn white-tailed or mule deer in two designated adjacent units listed on permit. If the hunter selects an adjacent unit not listed above, the permit is valid for a white-tailed buck, doe, or fawn in that unit. The permit is still valid for either species in the original unit.

NONRESIDENT ARCHERY WHITE-TAILED DEER COMBO (application online only)

Bag limit: One (1) buck, doe, or fawn white-tailed deer AND one (1) white-tailed antlerless deer

Nonresident Archery White-tailed Deer permits are available by draw only (deadline to apply is **April 26, 2024**) and are valid in two adjacent Deer Management Units listed on permit and DMU 19 (during special seasons). Nonresidents who receive a Nonresident Archery White-tailed Deer permit in Deer Management Unit 1, 2, 3, 4, 5, 7, 17 or 18 may also apply for one of a limited number of Mule Deer Stamps. If drawn, their permit becomes a Nonresident Archery Either-species/Either-sex permit with a bag limit of one (1) buck, doe, or fawn white-tailed or mule deer in two designated adjacent units listed on permit. If the hunter draws the mule deer stamp in one of the units listed above but selects an adjacent unit not listed above, the permit is valid for a white-tailed buck, doe, or fawn in that unit. The permit is still valid for either species in the original unit.

NONRESIDENT FIREARM WHITE-TAILED DEER COMBO (application online only)

Bag limit: One (1) buck, doe, or fawn white-tailed deer AND one (1) white-tailed antlerless deer

Nonresident Firearm White-tailed Deer permits are available by draw only (deadline to apply is **April 26, 2024**) and are valid in unit selected and one adjacent unit listed on permit during the regular firearm season.

HUNT-OWN LAND

Bag limit: One (1) buck, doe, or fawn white-tailed or mule deer
RESIDENT

Permits are valid for any season with equipment legal for that season, and only on lands owned and operated for agricultural purposes. This permit is available to individuals who qualify as landowners, tenants, or as lineal family members living with a resident landowner or tenant. This permit is not transferable.

NONRESIDENT

Permits are valid for any season with equipment legal for that season, and only on lands owned and operated for agricultural purposes. This permit is available to **the individual** who qualifies as the nonresident landowner or nonresident tenant. Land deeded as an LLC does not qualify individuals for landowner permits only for nonresident tenant permits. Must specify landowner permit or tenant permit at time of purchase. This permit is not transferable.

SPECIAL HUNT-OWN-LAND

Bag limit: One (1) buck, doe, or fawn white-tailed or mule deer

This permit may be issued to a resident landowner/tenant or nonresident tenant, their siblings and lineal ascendants or descendants, or spouses, whether or not a Kansas resident. Lineal ascendant and descendants include: grandparents, parents, children and their spouses. This permit is valid only on lands owned or operated by the landowner or tenant, and may be used in any season with equipment legal for that season. Permits are limited to one per 80 acres owned or operated. A nonresident hunting with this permit must also have a nonresident hunting license. Land deeded as an LLC does not qualify individuals for landowner permits.

WHITETAIL ANTLERLESS ONLY

Bag Limit: One (1) white-tailed deer without a visible antler protruding from skull

Hunter who possess a permit that allows the taking of an antlered deer may purchase as many as five (5) Antlerless White-tailed Deer permits. The first Whitetail Antlerless-only permit purchased is valid statewide except DMU 18, including all public lands and WIHA/WIHA. Up to four additional such permits may be issued to the same individual and are valid only in units 1, 2, 3, 4, 5, 7, 10A, 11, 12, 13, 14, 15, 16 and 19 on private land with landowner permission, on Walk-In Hunting Areas, and on Elk City and Berentz Dick wildlife areas. All Whitetail Antlerless Only permits are valid during any season with equipment legal for that season.

YOUTH PERMITS (15 and younger)

Reduced price youth permits are valid for the seasons specified on the permit. In addition, they are valid during the September youth/disabled season. During the youth season, hunters 17 and younger may hunt under adult supervision. However, hunters who are 16 and older are not eligible for the youth-priced permits.

DEER PERMITS AVAILABLE BY LOTTERY DRAW ONLY:

RESIDENT – FIREARM EITHER-SPECIES/EITHER SEX

NONRESIDENT – MUZZLELOADER WHITE-TAILED DEER COMBO

NONRESIDENT – ARCHERY WHITE-TAILED DEER COMBO

NONRESIDENT – FIREARM WHITE-TAILED DEER COMBO

ANTELOPE

SEASONS, DEADLINES

Draw Application Deadline: Firearm and muzzleloader (residents only)
Second Friday in June: June 14, 2024

Archery Season: (resident and nonresident) Sept. 23 - Oct. 1, 2023

Muzzleloader Season: Oct. 2-9, 2023

Firearm Season: Oct. 6-9, 2023

Shooting Hours: One-half hour before sunrise to one-half hour after sunset.

Bag Limit: One antelope, either sex.

DRAW APPLICATIONS (RESIDENTS ONLY)

Applications must be made on GoOutdoorsKansas.com. Firearm and muzzleloader antelope permits are available through online lottery draw only. Each application includes a \$12.50 nonrefundable application fee charged at the time of application. Following the draw, successful applicants will be charged the remaining permit fees due. Unsuccessful applicants will be issued a preference point for the next years' draw using the nonrefundable application fee and will not be charged the remaining permit fee. A preference point can be purchased online without permit application. Only one preference point may be obtained per year.

Applicants can view draw results online two to four weeks after the close of the application period. Results are posted at ksoutdoors.com at the same location as application. Successful applicants should receive permits four to six weeks after application deadline.

Unsuccessful applicants and those who purchased a preference point may no longer purchase an over-the-counter archery permit for antelope during the same year.

PERMIT DESCRIPTIONS

ARCHERY (resident and nonresident)

Bag limit: One (1) buck, doe, or fawn antelope

Archery permits are valid during archery season only. Permits are unlimited (one per hunter) and may be purchased over-the-counter or online by residents and nonresidents.

RESIDENT MUZZLELOADER (online application only)

Bag limit: One (1) buck, doe, or fawn antelope

Muzzleloader permits are valid in unit specified on permit during muzzleloader-only and regular firearm seasons using muzzleloading or archery equipment. Only Kansas residents or tenants may apply for this permit.

RESIDENT FIREARM (online application only)

Bag limit: One (1) buck, doe, or fawn antelope

Firearm permits are valid in unit specified on permit during firearm season using legal archery, muzzleloader or firearm equipment. Only Kansas residents or tenants may apply for this permit.

PERMIT CLASS

LANDOWNER/TENANT (online application only)

Half of the antelope permits in each unit are allocated to landowner/tenants. Applicant must qualify as a resident landowner or as a tenant, as defined on **Page 17**, in the unit or units in which the applicant applies. Members of the immediate family who are domiciled with a landowner or tenant may apply for a resident antelope permit as a landowner or as a tenant, but at least 80 acres must be owned by such landowner or operated by such tenant for each individual applying. Equipment and unit restrictions listed on permit apply.

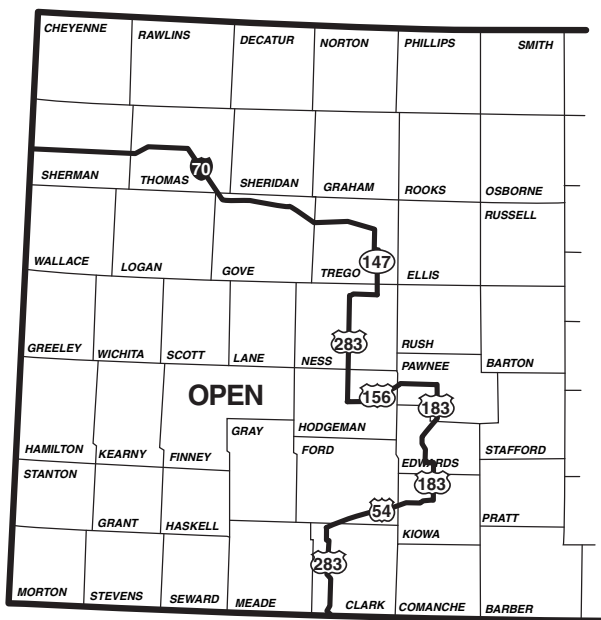

GENERAL RESIDENT

Anyone who qualifies as a Kansas resident as defined on **Page 17**.

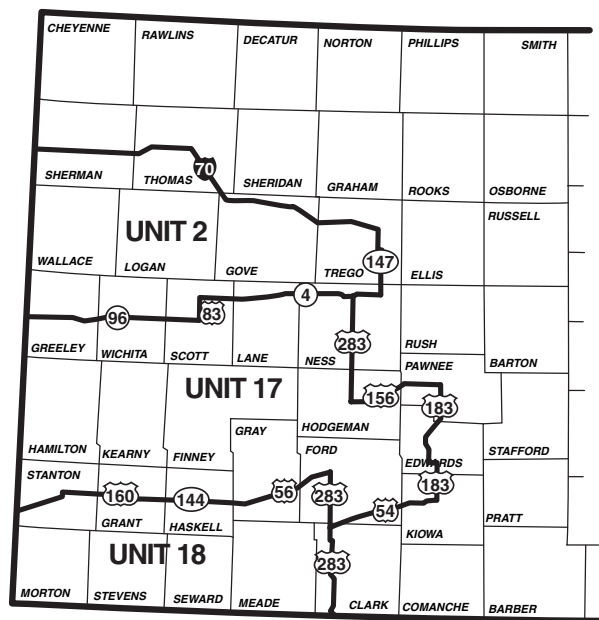

YOUTH PERMITS (15 and younger)

Youth permits are available at reduced prices and are valid for seasons specified on the permit.

ELK

Most elk in Kansas are found on the 100,000-acre Fort Riley Military Reservation where a free-ranging herd of wild elk provides limited hunting opportunities, allocated by a lottery drawing. Permits issued through the drawing are divided between military personnel stationed on the fort and Kansas general residents, and those permits are valid in elk management units 2, 2A and 3. Both Either-sex Elk and Antlerless-only Elk permits are allocated. The state is divided into three elk hunting units. Unit 1 is an area of Morton County where no elk hunting is currently allowed. Unit 2 is an area around Fort Riley, including parts of Clay, Dickinson, Riley and Geary counties. Unit 2A is the Fort Riley reservation. Unit 3 is the remaining part of the state.

Once a hunter receives an Either-sex Elk permit in the drawing, he or she is not eligible to apply for an Either-sex Elk permit again. A hunter who receives an Antlerless-only Elk permit in the drawing is not eligible to apply for another antlerless-only permit for a five-year period. Unsuccessful applicants will receive a bonus point to increase their odds of being selected in future lottery drawings.

Wild elk exist in Unit 3, but it is advisable to locate and obtain access to elk prior to purchasing a permit.

PERMIT DESCRIPTIONS

ANY-ELK

Bag limit: One (1) bull, spike, cow, or calf elk.

Permit is valid in Unit(s) specified on the permit during any open season using equipment authorized for that season. A limited number of Unit 2 permits are available by draw to general residents, resident youth, and resident landowners and tenants who own or operate land in Unit 2. An unlimited number of these permits are available in Unit 3 to general residents, youth, and resident landowners and tenants who own or operate land in Unit 3.

ANTLERLESS-ONLY ELK

Bag limit: One (1) elk without a visible antler protruding from the skull.

Permit is valid in Unit(s) specified on the permit during any open season using equipment authorized for that season. A limited number of Unit 2 permits are available by draw to general residents, resident youth, and resident landowners and tenants who own or operate land in Unit 2. An unlimited number of these permits are available in Unit 3 to general residents, youth, and resident landowners and tenants who own or operate land in Unit 3.

HUNT-OWN-LAND ANY-ELK

Bag limit: One (1) bull, spike, cow, or calf elk.

Permit is valid only on land owned or operated for agricultural purposes during any open season using equipment authorized for that season. An unlimited number of these permits are available in Units 2 and 3 to resident landowners and tenants who own or operate land in those units.

HUNT-OWN-LAND ANTLERLESS-ONLY ELK

Bag limit: One (1) elk without a visible antler protruding from the skull.

Permit is valid only on land owned or operated for agricultural purposes during any open season using equipment authorized for that season. An unlimited number of these permits are available in Units 2 and 3 to resident landowners and tenants who own or operate land in those units.

DRAW APPLICATIONS (RESIDENTS ONLY)

Applications must be made on GoOutdoorsKansas.com. Elk permits are available through online lottery draw only. Each application includes a \$12.50 nonrefundable application fee charged at the time of application. Following the draw, successful applicants will be charged the remaining permit fees due. Unsuccessful applicants will be issued a bonus point for the next years' draw using the nonrefundable application fee and will not be charged the remaining permit fee.

Applicants can view draw results online two to four weeks after the close of the application period at ksoutdoors.com at the same location application was made. Successful applicants should receive permits four to six weeks after application deadline. **Applications for the 2024 elk season are due June 14, 2024.**

SEASONS ON FORT RILEY

Muzzleloader & Archery Season: Sept. 1-30, 2023

Either-Sex Firearm Season: Oct. 1-Dec. 31, 2023

Antlerless-Only Firearm Seasons: First Segment, Oct. 1-31, 2023; Second Segment, Nov. 1-30, 2023; Third Segment, Dec. 1-31, 2023

See permit for season eligibility.

/SEASONS OUTSIDE FORT RILEY (STATEWIDE EXCEPT MORTON COUNTY)

Muzzleloader Season: Sept. 1-30, 2023

Archery Season: Sept. 11 - Dec. 31, 2023

Firearm Seasons: Aug. 1-31, 2023, Nov. 29 - Dec. 10, 2023 and Jan. 1 - March 15, 2024

PERMIT CLASS

GENERAL RESIDENT

Anyone who qualifies as a general resident as defined on [Page 17](#) is eligible for elk hunting as described in the Permit Descriptions.

LANDOWNER/TENANT

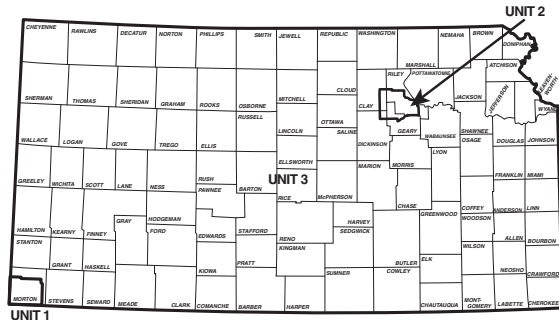

Anyone who qualifies as a resident landowner or tenant as defined on [Page 17](#) is eligible for elk hunting as described in the Permit Descriptions. When purchasing or applying for a landowner/tenant permit, land owned or operated must be in the unit applying for.

YOUTH PERMITS (15 and younger)

Resident youth may apply for general resident elk permits at reduced prices.

Elk permits, with the exception of the Commission Big Game Permits, are not available to nonresidents including nonresident landowners.

POST-HARVEST INSTRUCTIONS

POST-HARVEST INSTRUCTIONS

At the time of purchase, hunters will have the option of paper carcass tags or mobile/E-tag.

PAPER TAGS: Sign PERMIT prior to hunting to validate it. After an animal is harvested, the CARCASS TAG must be signed, dated and attached to the animal in a visible manner before the carcass is moved from the harvest site.

Paper permits and tags purchased through the internet must be printed on a desktop printer at the time of purchase. To protect the non-waterproof paper tag, cut it from the permit, place in a clear plastic bag and attach it to the animal with a zip-tie or other secure manner.

The carcass tag must remain attached to the animal during transport and kept with the meat until it is consumed, given to another or otherwise disposed.

Hunters using paper tags can complete a voluntary harvest report of turkey or big game animal if they wish to “bone-out” in

the field. Go to: For instructions on this process, go to “Harvest Reporting” on GoOutdoorsKansas.com or the mobile app.

MOBILE/E-TAGS: Hunters who choose e-tags at time of purchase will keep permit and tags on their mobile device through the GoOutdoorsKS mobile app. After harvest, open the “GoOutdoorsKS” mobile app and follow the instructions on the app for the e-tag appropriate for the species/sex of harvest. An e-tag confirmation number will work the same as harvest reporting for a hunter wanting to bone out an animal and transport only meat from harvest site.

SURVEYS: Hunters may be asked to complete online harvest surveys at the end of the season. Information received helps biologists make decisions to manage healthy game populations. A random sample of hunters will be contacted, making it

important for update your address information each year when purchasing permits and tags. Hunters surveyed will receive an email or a postcard with a link to an online survey. Questions about the surveys or assistance in completing surveys may be obtained through the KDWP Research and Survey Office, (620) 342- 0658. State law (K.S.A. 32-937) requires hunters receiving a harvest report card complete the survey.

TICK-BORNE DISEASES

Ticks can carry microbes that cause serious and sometimes deadly diseases such as tularemia, ehrlichiosis, anaplasmosis, Rocky Mountain spotted fever and Lyme disease, as well as Alpha-gal syndrome (AGS) commonly known as red meat allergy, and viruses such as the Powassan and Bourbon viruses. Tick-borne diseases and viruses are transmitted to humans when an infected tick bites a human. In Kansas, approximately 300 people are diagnosed with tick-borne diseases every year.

Because ticks live in grassy, brushy, or wooded areas, and on animals, hunters are at an increased risk of contracting tick-borne diseases.

In Kansas, ticks most likely to cause disease in humans and animals are American dog ticks, Lone Star ticks, and Blacklegged ticks.

Common signs and symptoms following contact with an infected tick include fever, rash, or flu-like illness. Symptoms may not appear for seven to 21 days after a bite. Most tick-borne diseases can be effectively treated if recognized early, so hunters should notify their doctor of any recent tick bites or outdoor activities where exposure to ticks may have occurred.

Permethrin-treated clothing and gear is a deterrent to ticks, and remains effective through several washings; Permethrin should not be applied to skin. Insect repellents registered through the Environmental Protection Agency (EPA) containing DEET, picaridin, IR3535, oil of lemon eucalyptus (OLE), para-menthane-diol (PMD), or 2-undecanone can effectively repel ticks, and may be applied to skin and clothing. Hunting dogs should also be treated with tick prevention products, as prescribed by a veterinarian.

Before going afield, hunters should tuck pants into socks and shirts into pants to prevent ticks from crawling inside clothing. It is wise to limit walking time on game trails, as ticks target these trails as a way to latch onto their wildlife hosts. Upon returning from the outdoors, hunters should immediately shower to remove any unattached ticks, then perform a body check. Ticks in larvae and nymph stages are harder to see than adult ticks, so thorough careful inspections are needed, especially in the armpits and waste line where belts restrict the upward movement of ticks. Dogs should also be inspected for ticks. Additionally, clothes that have been worn outside when ticks are active should be contained in an air-tight bag until washed, and shoes left outside, to help prevent ticks from entering a house. For a guide on how to perform a tick check, and how to remove ticks, visit <https://www.cdc.gov/features/hunting-season-ticks/index.html>.

IMPORTANT NOTE REGARDING TULAREMIA:

Tularemia, a zoonotic disease, can be spread through the bite of an infected tick. Tularemia can also be spread through deer flies or contact with infected animals and their carcasses.

Hunters should always wear gloves when handling sick or dead animals.

Hunting dogs can also contract tularemia if they've been in contact with infected game. If a hunting dog develops a fever, becomes depressed, or loses its appetite, consult a veterinarian immediately. Tularemia and other diseases have been passed from exposed dogs to humans because of dogs licking their owners' faces.

BLACKLEGGED TICK *Ixodes scapularis*

LONE STAR TICK *Amblyomma americanum*

DOG TICK *Dermacentor variabilis*

BIG GAME PROCESSING LOCATIONS

As a service to hunters, KDWP has compiled a list of meat processors in Kansas who may accept big game animals this season. Inclusion in this list does not serve as an endorsement by KDWP and does not guarantee service. Some facilities have policies and/or restrictions on big game processing. Please contact the processor directly for more details before traveling. Additions to this list can be made by emailing a request to dustin.mengarelli@ks.gov.

2018	56	2012	7	2005	1
2017	35	2011	8	2001	1

WHAT IS CWD?

Chronic Wasting Disease (CWD) is a contagious and fatal neurological disease of deer, elk, moose and other cervids. Outward symptoms of CWD include emaciation, abnormal behavior, excessive salivation and loss of bodily functions. Many times, CWD-positive deer are observed near outbuildings at farmsteads or near bodies of water. However, **symptoms do not manifest until the last months of the disease; therefore, most CWD-positive cervids are asymptomatic and appear normal when harvested.** Always notify KDWP if sick deer or elk are observed.

HOW IT SPREADS

Impacts of CWD on population dynamics of deer and elk are presently unclear. Population impacts have been documented in mule deer, white-tailed deer and elk in restricted geographic areas, but it is uncertain how CWD will impact herds on a larger geographic scale.

Cervids are thought to become infected via

animal-to-animal contact and indirectly via contaminated environment-to-animal transmission. **Baiting, feeding, and artificially concentrating deer is not advised, especially in areas where CWD is known to occur.** Infected deer will excrete as many infectious prions throughout the course of its life (urine, feces, saliva, breath, etc.) as will be accumulated in the tissues of the animal at the time of its death. These prions will remain in the environment indefinitely.

EATING WILD MEAT

At this time, there is no definitive evidence that CWD has been transmitted to humans, but more and more evidence is suggesting the risk to humans is not zero. Due to this uncertainty, hunters should not eat meat from animals known to be infected with CWD or exhibiting signs of any disease. It's also important to note: **thoroughly cooking CWD-positive meat at normal cooking temperatures does not destroy/remove CWD prions.**

SLOW THE SPREAD

Hunters, especially in CWD-positive areas, are advised to bone out their meat to avoid transporting CWD to uninfected areas via the animal's carcass.

Electronic Deer Check-in is required to leave carcasses in the field that were taken with an antlerless permit. See ksoutdoors.com/Hunting/Hunting-Regulations/Deer/Electronic-Registration for instructions.

MINIMIZE EXPOSURE

- Do not shoot, handle or eat meat from deer and elk that look sick or are acting strangely or are found dead (roadkill).
- When field-dressing a deer:
 1. Wear latex or rubber gloves when dressing the animal or handling the meat.
 2. Minimize how much you handle the organs of the animal, particularly the brain or spinal cord tissues.
 3. Do not use household knives or other kitchen utensils for field dressing.

For more information, visit www.CWDKS.com

CHRONIC WASTING DISEASE (CWD)

HOW TO TEST

1. Collect a sample, or have a sample collected.

An instructional video on how to properly collect samples for CWD testing is available on KSVDL's YouTube page, www.youtube.com/@KStateVDL. The video is titled, "Chronic Wasting Disease Testing in Deer" and can also be accessed here: www.youtube.com/watch?v=jzmFN6tVa_k.

Hunters who take game from within the Southwest Zone may have samples taken for them via a private sample collector listed on ksoutdoors.com/CWD.

2. Select desired testing and shipping option.

A. For game harvested in the Southwest Zone: Take the whole head to one of the participating private sample collectors listed under "2023-2024 CWD Sampling Information" at ksoutdoors.com/CWD and KDWP will pay for your testing.

B. For game harvested outside the Southwest Zone: After calling ahead to make arrangements, take the sample(s) OR the whole head to a sample collector listed on ksoutdoors.com/cwd under "2023-2024 CWD Sampling Information," then "CWD Sample Collectors." KDWP will pay for testing using this option.

C. Ship sample(s) directly to KSVDL (shipping and shipping costs are at hunter's expense) with a completed data card for each animal (see provided template). If a completed data card accompanies the sample, KDWP will pay for the testing portion. If a data card is incomplete or does not accompany a sample, testing must be completed at the hunter's expense.

D. Ship sample(s) directly to KSVDL and pay for shipping and testing on your own. For this option, no data card is required. Contact KSVDL at (785) 532-5650 to make arrangements and/or set up an account.

- Strongly consider having the deer or elk tested for CWD before you eat the meat.
- If you have your deer or elk commercially processed, consider asking that your animal be processed individually to avoid mixing meat from multiple animals.
- If your animal tests positive for CWD, do not eat meat from that animal.

ABOUT TESTING

This year, KDWP plans to test hunter-killed deer at least 1.5 years old from anywhere in the state, and from the Southwest Surveillance Zone. KDWP will also be offering free testing in other surveillance zones, contingent on funding.

Hunters who harvest a 1.5-year-old or older deer in the Southwest Zone can have it tested for free through the KDWP CWD surveillance program. All samples, regardless of harvest location, will be tested at the Kansas State Veterinary Diagnostic Laboratory (KSVDL).

Hunters will be notified by phone if their sample tests positive for CWD approximately 1-1.5 weeks after arrival at KSVDL. Animals first submitted to taxidermists may not immediately be sent out for testing, as these specimens are often sent to the lab in bulk a few times throughout the season.

Hunters should freeze their game meat until a result is obtained.

Hunters may also view test results at ksoutdoors.com//CWD. Record the data card barcode number or the temporary Tyvek tag number of the sample when having your deer/elk sampled for CWD. These numbers are used to reference results posted to ksoutdoors.com.

Free testing is on a first-come, first served basis. Free testing will only be available for the first 1500 animals submitted.

Hunters needing expedited testing service may submit samples privately by calling KSVDL Client Care at (785) 532-5650. For the 2023-2024 seasons, the testing cost for privately-submitted samples will be \$33.00.

CWD DATA CARD KANSAS (complete both sides)

Harvest Date: _____

Name: _____

Address: _____

City, State, Zip: _____

HARVEST LOACTION (please fill in all 3 blanks:

1) Deer (or elk) Management Unit: _____

2) County: _____

3) Distance and direction from nearest town:

(if known) Lat. _____ Long. _____

Collector Name: _____

Self / Contractor / KDWP personnel

This data card template is needed if you are sending your samples directly to the lab and you want KDWP to pay for the testing. If you are taking your deer head(s) or sample(s) to a biologist location for sampling, the biologist will already have a data card to fill out.

MIGRATORY GAME BIRDS

FEDERAL LAWS ON METHODS OF TAKE AND BAITING

Migratory birds, on which open seasons are prescribed, may be taken by any method except those prohibited in this section.

No persons shall take migratory game birds:

- (a) With a trap, snare, net, rifle, pistol, swivel gun, shotgun larger than 10 gauge, punt gun, battery gun, machinegun, fish hook, poison, drug, explosive, or stupefying substance;
- (b) With a shotgun of any description capable of holding more than three shells, unless it is plugged with a one-piece filler, incapable of removal without disassembling the gun, so its total capacity does not exceed three shells. However, this restriction does not apply during light-geese spring conservation season.
- (c) From or by means, aid, or use of a sinkbox or any other type of low floating device, having a depression affording the hunter a means of concealment beneath the surface of the water;
- (d) From or by means, aid, or use of any motor vehicle, motor-driven land conveyance, or aircraft of any kind, except that paraplegics and persons missing one or both legs may take from any stationary motor vehicle or stationary motor-driven land conveyance;
- (e) From or by means of any motorboat or other craft having a motor attached, or any sailboat, unless the motor has been completely shut off and/or the sails furled, and its progress therefrom has ceased: Provided, that a craft under power may be used to retrieve dead or crippled birds; however, crippled birds may not be shot from such craft under power;
- (f) By the use or aid of live birds as decoys; although not limited to, it shall be a violation of this paragraph for any person to take migratory waterfowl on an area where tame or captive live ducks or geese are present unless such birds are and have been for a period of 10 consecutive days prior to such taking, confined within an enclosure which substantially reduces the audibility of their calls and totally conceals such birds from the sight of wild migratory waterfowl;
- (g) By the use or aid of recorded or electrically amplified bird calls or sounds, or recorded or electrically amplified imitations of bird calls or sounds. However, this restriction does not apply during light-geese spring conservation season or crow hunting;

- (h) By means or aid of any motor driven land, water, or air conveyance, or any sailboat used for the purpose of or resulting in the concentrating, driving, rallying, or stirring up of any migratory bird;
- (i) By the aid of baiting, or on or over any baited area, where a person knows or reasonably should know that the area is or has been baited.

Baited area means any area on which salt, grain, or other feed has been placed, exposed, deposited, distributed, or scattered, if that salt, grain, or other feed could serve as a lure or attraction for migratory game birds to, on, or over areas where hunters are attempting to take them. Any such area will remain a baited area for ten days following the complete removal of all such salt, grain, or other feed.

Baiting means the direct or indirect placing, exposing, depositing, distributing, or scattering of salt, grain, or other feed that could serve as a lure or attraction for migratory game birds to, on, or over any areas where hunters are attempting to take them.

It is legal to take migratory game birds including waterfowl, coots, and cranes, on or over the following lands or areas that are not otherwise baited areas:

- standing crops or flooded standing crops (including aquatics);
- standing, flooded, or manipulated natural vegetation; flooded harvested croplands; or lands or areas where seeds or grains have been scattered solely as the result of a normal agricultural planting, harvesting, post-harvest manipulation or normal soil stabilization practice;
- from a blind or other place of concealment camouflaged with natural vegetation;
- from a blind or other place of concealment camouflaged with vegetation from agricultural crops, as long as such camouflaging does not result in the exposing, depositing, distributing or scattering of grain or other feed; or
- standing or flooded standing agricultural crops where grain is inadvertently scattered solely as a result of a hunter entering or exiting a hunting area, placing decoys, or retrieving downed birds.

It is legal to take migratory game birds, except waterfowl, coots and cranes, on or over lands or areas that are not otherwise baited areas, and where grain or other feed has been distributed or scattered solely as the result of manipulation of an agricultural crop or other feed on the land where grown, or solely as the result of a normal agricultural operation.

Manipulation means the alteration of natural vegetation or agricultural crops by activities that include but are not limited to mowing, shredding, discing, rolling, chopping, trampling, flattening, burning, or herbicide treatments. The term manipulation does not include the distributing or scattering of grain, seed, or other feed after removal from or storage on the field where grown.

Natural vegetation means any non-agricultural, native, or naturalized plant species that grows at a site in response to planting or from existing seeds or other propagules. The term natural vegetation does not include planted millet. However, planted millet that grows on its own in subsequent years after the year of planting is considered natural vegetation.

Normal agricultural planting, harvesting, or post-harvest manipulation means a planting or harvesting undertaken for the purpose of producing and gathering a crop, or manipulation after such harvest and removal of grain, that is conducted in accordance with official recommendations of State Extension Specialists of the Cooperative Extension Service of the U.S. Department of Agriculture.

Normal agricultural operation means a normal agricultural planting, harvesting, post-harvest manipulation, or agricultural practice that is conducted in accordance with official recommendations of State Extension Specialists of the Cooperative Extension Service of the U.S. Department of Agriculture.

Normal soil stabilization practice means a planting for agricultural soil erosion control or post-mining land reclamation conducted in accordance with official recommendations of State Extension Specialists of the Cooperative Extension Service of the U.S. Department of Agriculture for agricultural soil erosion control.

For more information about federal migratory bird laws visit: ksoutdoors.com//Hunting/Migratory-Birds/Federal-Migratory-Bird-Regulations.

MIGRATORY GAME BIRDS

GENERAL MIGRATORY GAME BIRD REGULATIONS

LICENSES / STAMPS / PERMITS

All waterfowl hunters 16 and older must have a Federal Migratory Bird Hunting and Conservation Stamp (Federal Duck Stamp), and all hunters who are required to obtain a license must also have a Kansas Waterfowl Permit and a Kansas Harvest Information Program Permit (HIP) before hunting ducks, geese, or mergansers. (See license exemptions on **Page 6**.)

Kansas HIP Permit\$2.50
Kansas Waterfowl Permit\$10
Federal Waterfowl E-stamp\$28.50

Hunters who purchase a Federal Waterfowl E-stamp must carry their 45-day receipt when hunting waterfowl. Once the 45-day receipt expires, hunters must carry their current, signed Federal Duck Stamp (a store purchase/credit card receipt is not valid as a duck stamp). Kansas Waterfowl Permits are available at all KDWP offices and license vendor locations.

A Federal Waterfowl Stamp and Kansas Waterfowl Permit and are not required to hunt coots, migratory doves, rails, snipe, woodcock, or sandhill cranes. A Kansas HIP Permit is required, unless license exempt.

SHOOTING HOURS

Shooting hours are one-half hour before sunrise to sunset, except for sandhill crane, which are sunrise to sunset and for light geese during the Spring Conservation Order, which are half hour before sunrise to one-half hour after sunset.

TRANSPORTING

During transport, one fully-feathered wing and/or head must remain attached to migratory birds (except mourning/white-winged doves).

Migratory game birds given to another person, taxidermist, storage facility, or commercial processor must be tagged with the signature and address of the hunter and the number, species, and date taken. Migratory birds packed for shipping must be clearly marked with the name and address of the shipper and addressee, as well as the number and species of birds.

ILLEGAL METHODS

Sink boxes, live decoys, baiting, electronic calls, and pursuit with any motorized conveyance or sailboat are illegal. When hunting from a motorized craft or sailboat, the motor must be turned off or the sail furled and progress ceased. **Decoys shall not be left unattended overnight on department-managed areas.**

METHODS OF TAKE

Bow and arrow, falconry, or shotgun no larger than 10-gauge. Shotguns must be incapable of holding more than three shells. **Migratory doves may only be taken while in flight.**

REFUGE AREAS

Many state and federal wildlife areas have refuges, as well as public hunting areas. These refuge areas may be closed to any activity during the hunting seasons. Check with local offices for refuge boundaries and closure dates.

FIELD POSSESSION

No person shall possess more migratory game birds taken in the United States than the possession limit or aggregate possession limit, whichever applies.

No person shall possess, have in custody, or transport more than the daily bag limit or aggregate daily bag limit, whichever applies, of migratory game birds, tagged or not tagged, at or between the place where taken and either (a) their automobile or principal means of land transportation; or (b) their personal abode or temporary or transient place of lodging; or (c) a migratory bird preservation facility; or (d) a post office; or (e) a common carrier facility.

No person may receive, possess, or give to another, any freshly killed migratory game birds as a gift, except at the personal abodes of the donor or donee, unless such birds have a tag attached, signed by the hunter who took the birds, stating the hunter's address, the total number and species of birds and the date such birds were taken.

TAGGING/CUSTODY

No person shall put or leave any migratory game birds at any place (other than his personal abode), or in the custody of another person for picking, cleaning, processing, shipping, transportation, or storage (including temporary storage), or for the purpose of having taxidermy services performed, unless such birds have a tag attached, signed by the hunter, stating the hunter's address, the total number and species of birds, and the date such birds were killed. Migratory game birds being transported in any vehicle as the personal baggage of the possessor shall not be considered as being in storage or temporary storage.

No person shall receive or have in custody any migratory game birds belonging to another person unless such birds are tagged as required.

NON-TOXIC SHOT

Kansas requires non-toxic shot for hunting ALL migratory game birds except doves and woodcock. This includes ducks, geese, coots, mergansers, rails, sandhill cranes, and snipe. Legal shot is steel, bismuth-tin, tungsten-polymer, tungsten-iron, tungsten matrix, tungsten-nickel-iron, tungsten-iron-nickel-tin, and steel shot coated with copper, nickel, zinc chromate, or zinc chloride.

It is illegal to possess lead shot while hunting migratory game birds except doves and woodcock or while hunting in a Non-Toxic-Shot-Only area. "Possession" means that lead shot cannot be in a hunter's gun, pockets, blind, boat or in reach while in the process of hunting. Lead shot left in a vehicle is not considered "in possession."

NON-TOXIC SHOT ONLY

Non-toxic shot is the only shotgun load allowed on the following wildlife areas and national wildlife refuges:

Benedictine Bottoms WA, Burr Oak WA, Cheyenne Bottoms WA, Cherokee Lowlands WA, Dalbey WA, Elwood WA, Flint Hills NWR, Gurley Salt Marsh WA, Hain WA, Herron Playa WA, Isabel WA, Jamestown WA, Kirwin NWR, Marais des Cygnes NWR, Marais des Cygnes WA, McPherson Wetlands WA, Neosho WA, Oak Mills WA, Otter Creek WA, Quivira NWR, Slate Creek WA, Stein Playa WA, Talmo Marsh WA, Texas Lake WA, Wild Turkey Playa WA, and other areas as posted.

DESIGNATED DOVE FIELDS

Non-toxic shot is required on designated dove fields at the following wildlife areas:

NORTHEAST

Bolton WA, Buck Creek WA, Clinton WA, Hillsdale WA, Kansas River WA, Melvern WA, Milford WA, Perry WA, Richard B. Hanger WA, Rutlader WA, Tuttle Creek WA

SOUTHCENTRAL/SOUTHEAST

Berentz-Dick WA, Big Hill WA, Cheney WA, El Dorado WA, Dove Flats WA, Elk City WA, Fall River WA, Grand Osage WA, Hollister WA, Mined Land WA, Spring River WA, Toronto WA, Woodson WA.

Dove fields requiring non-toxic shot are designated by posted notice. As long as signs are in place, non-toxic shot is required. Other fields may be added closer to opening day of dove season. For a complete list, visit ksoutdoors.com/Hunting/MigratoryBirds/Dove2.

MIGRATORY GAME BIRDS

DUCK, COOT, MERGANSER SEASONS/LIMITS

SEPTEMBER TEAL

High Plains Unit, West of U.S. 283:
Sept. 16-24, 2023

Low Plains Unit, East of U.S. 283:
Sept. 9-24, 2023

Daily Bag Limit: 6

Possession Limit: Three times the daily bag limit.

Stamps/Permits Required: Kansas HIP Permit, Kansas Waterfowl Permit, Federal Waterfowl Stamp

Shooting Hours: One-half hour before sunrise to sunset.

YOUTH, VETERAN & ACTIVE MILITARY

Only hunters age 17 and younger, veterans and active military members (military ID required while hunting) may hunt during the season dates listed below.

High Plains Zone: Sept. 30 - Oct. 1, 2023

Low Plains Early Zone: Sept. 30 - Oct. 1, 2023

Low Plains Late Zone: Oct. 21-22, 2023

Low Plains Southeast Zone: Nov. 4-5, 2023

Daily Bag Limit: Same as duck/goose seasons.

Possession Limit: Same as duck/goose seasons.

YOUTH, VETERAN & ACTIVE MILITARY (CONT.)

Stamps/Permits Required:

Youth- Resident hunters under the age of 16 years are not required to have any stamps or permits. Resident hunters 16 years of age and older must possess a Kansas HIP Permit, Kansas Waterfowl Permit, and Federal Waterfowl Stamp. Non-resident hunters under the age of 16 years must possess Kansas HIP Permit & Kansas Waterfowl Permit. Non-resident hunters 16 years of age and older must possess a Kansas HIP Permit, Kansas Waterfowl Permit, and Federal Waterfowl Stamp.

Veteran/Active Military- Must possess Kansas HIP Permit, Kansas Waterfowl Permit, Federal Waterfowl Stamp as well as proof of military service such as state issued Driver License noting veteran status, a Department of Defense issued ID (i.e., Active-Duty I.D. card or Retired Active Military I.D.), other military government issues ID cards indicating military service such as Veteran's Affairs ID or Veteran Benefit Card, or a copy of DD214 or DD215 discharge paperwork.

Shooting Hours: One-half hour before sunrise to sunset.

DUCK, COOT, MERGANSER

High Plains Zone: Oct. 7-Dec. 31, 2023 and Jan. 19-28, 2024

Low Plains Early Zone: Oct. 7-Dec. 3, 2023 and Dec. 23, 2023 - Jan. 7, 2024

Low Plains Late Zone: Oct. 28 - Dec. 31, 2023 and Jan. 20-28, 2024

Low Plains Southeast Zone: Nov. 11, 2023 - Jan. 7, 2024 and Jan. 13-28, 2024

Daily Bag Limit Duck and Merganser: 6
Any combination of six ducks and/or mergansers which may include no more than five mallards (only two of which may be hens), three wood ducks, two redheads, two canvasbacks, one scaup and one pintail.

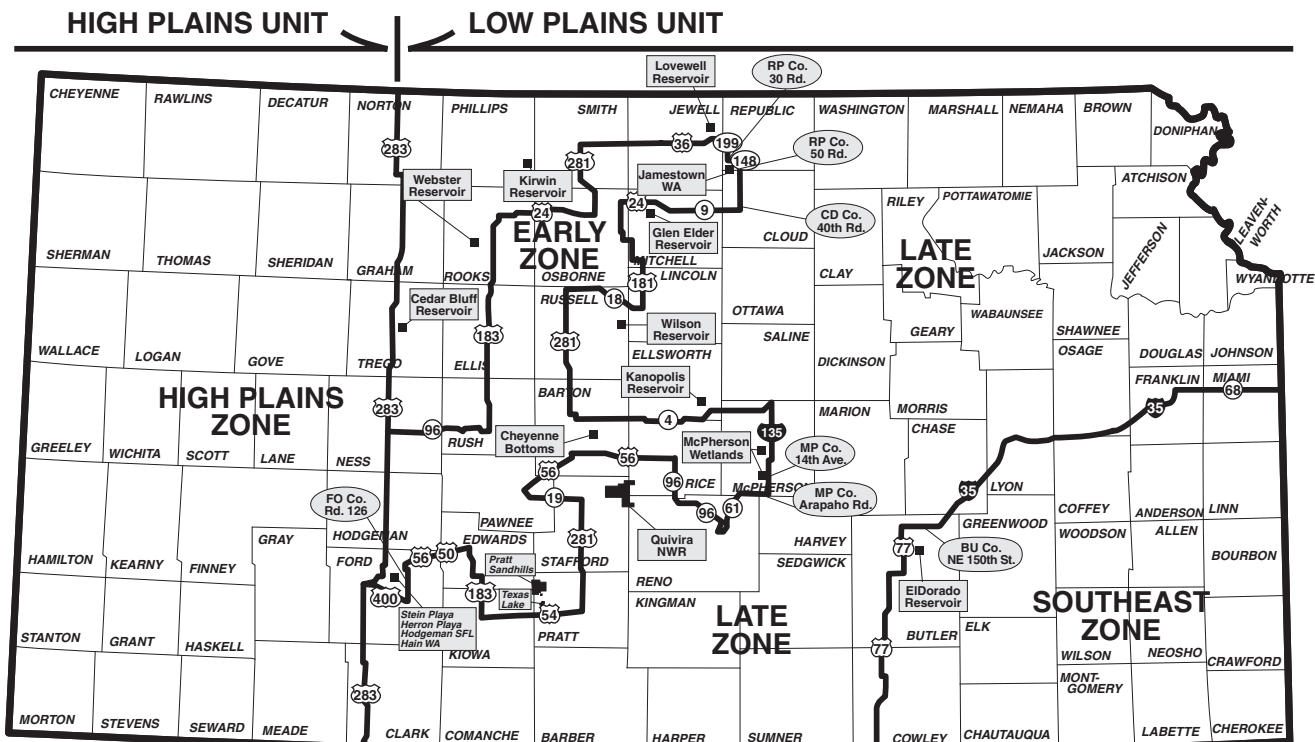

Daily Bag Limit Coot: 15

Possession Limit: Three times the daily bag limit.

Stamps/Permits Required: Kansas HIP Permit, Kansas Waterfowl Permit, Federal Waterfowl Stamp

Shooting Hours: One-half hour before sunrise to sunset.

DUCK UNITS AND ZONES

For a more detailed map, legal description and Google Earth download of Kansas duck hunting zones, visit ksoutdoors.com and click "Hunting," "Migratory Birds," then "State Waterfowl Regulations."

MIGRATORY GAME BIRDS

GOOSE SEASONS/LIMITS

DARK GEESE (CANADA, CACKLING, WHITE-FRONTED, BRANT AND ALL OTHER GEESE EXCEPT LIGHT GEESE)

Canada, cackling, brant and all other geese except whitefronts and light geese

Season: Oct. 28-29, 2023 and Nov. 1, 2023 - Feb. 11, 2024

Daily Bag Limit: 6

Possession Limit: Three times the daily bag limit.

Stamps/Permits Required: Kansas HIP Permit, Kansas Waterfowl Permit, Federal Waterfowl Stamp

Shooting Hours: One-half hour before sunrise to sunset.

White-fronted Geese

Season: Oct. 28 - Dec. 31, 2023 and Jan. 20 - Feb. 11, 2024

Daily Bag Limit: 2

Possession Limit: Three times the daily bag limit.

Stamps/Permits Required: Kansas HIP Permit, Kansas Waterfowl Permit, Federal Waterfowl Stamp

Shooting Hours: One-half hour before sunrise to sunset.

LIGHT GEESE (WHITE AND BLUE PHASE OF SNOW AND ROSS')

Season: Oct. 28-29, 2023 and Nov. 1, 2023 - Feb. 11, 2024

Daily Bag Limit: 50

Possession Limit: Unlimited

Stamps/Permits Required: Kansas HIP Permit, Kansas Waterfowl Permit, Federal Waterfowl Stamp

Shooting Hours: One-half hour before sunrise to sunset.

Spring Conservation Order: Feb. 12 - April 30, 2024

Daily Bag Limit: Unlimited

Possession Limit: Unlimited

Stamps/Permits Required: Kansas HIP Permit, Kansas Waterfowl Permit, Federal Waterfowl Stamp

Equipment Restrictions: Unplugged shotguns and electronic calls may be used.

Shooting Hours: One-half hour before sunrise to one-half hour after sunset.

MIGRATORY GAME BIRDS

SANDHILL CRANES (SPECIAL PERMIT REQUIRED)

PERMITS

In addition to a hunting license (if required), a sandhill crane hunting permit is required to hunt cranes. Crane permits obtained in other states are not valid in Kansas. The validated permit (\$7.50) is available wherever licenses are sold.

All hunters must take an online crane identification test each year before hunting sandhill cranes. Non-toxic shot is required for sandhill crane hunting. Lead shot may not be possessed while crane hunting.

SEASON AND BAG LIMIT

West Zone Season: Oct. 21-Dec. 17, 2023

Daily bag limit: 3

Possession Limit: Three times the daily bag limit.

Stamps/Permits Required: Kansas HIP Permit, Sandhill Crane Permit

Non-toxic shot required.

Shooting Hours: Sunrise to sunset.

Central Zone Season: Nov. 8, 2023 - Jan. 4, 2024

Daily bag limit: 3

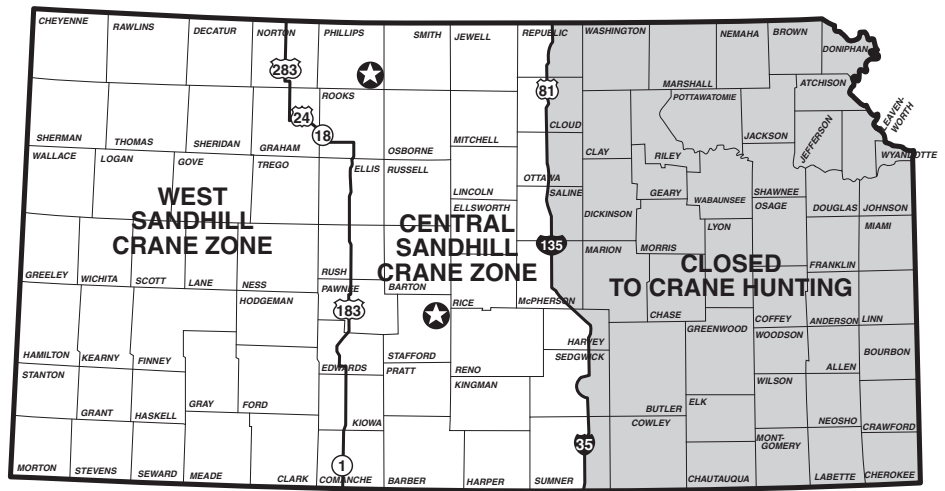

Possession Limit: Three times the daily bag limit.

Stamps/Permits Required: Kansas HIP Permit, Sandhill Crane Permit

Non-toxic shot required.

Shooting Hours: Sunrise to sunset.

SANDHILL CRANE ZONES

★ Quivira and Kirwin National Wildlife Refuges are closed to crane hunting.

ATTENTION SANDHILL CRANE HUNTERS

Sandhill crane and waterfowl hunters need to be aware that whooping cranes are occurring more frequently in Kansas during fall migration. Cheyenne Bottoms Wildlife Area and Quivira National Wildlife Refuge are important stopover areas for whooping cranes, and hunters must be able to identify whooping cranes from other game. Whooping cranes and sandhill cranes are similar in size and shape, and can be difficult to distinguish in low-light conditions. The penalty for shooting a whooping crane is a fine of up to \$100,000 and/or up to one year in prison. For more information, visit: ksoutdoors.com/news/Hunting/Migratory-Birds/Sandhill-Crane. All sandhill crane hunters must complete an online crane identification test.

The test can be found at:

programs.ksoutdoors.com/Programs/Sandhill-Crane-Certificate

Sandhill cranes are generally even gray in color with a patch of red above the eye. Whooping cranes are generally white except for the distinct black wingtips. Juvenile whooping cranes will have a rust color throughout the white plumage. Whooping cranes are larger than sandhills.

When whooping cranes are present, areas may be closed.

When hunting sandhill cranes, be especially careful during low light or backlit conditions. The photos to the right show how difficult it can be to identify cranes in poor light conditions. **If there is any doubt, don't shoot!**

FURBEARERS AND COYOTES

GENERAL REGULATIONS

FURBEARER DEFINED

Species legally taken as furbearing animals in Kansas are badger, bobcat, beaver, gray fox, red fox, swift fox, mink, muskrat, opossum, otter, raccoon, striped skunk, and weasel.

FURHARVESTER EDUCATION CERTIFICATION

Persons born on or after July 1, 1966, must successfully complete a furharvester education course approved by KDWP to purchase a furharvester license or to hunt, run, or trap furbearers or trap coyotes on lands other than their own. Course information: (620) 672-5911 or ksoutdoors.com.

FURHARVESTER LICENSE

A furharvester license is required to hunt, trap, or pursue (run) furbearing animals, or to sell their pelts. A furharvester license is required to trap coyotes, and a hunting license is required to hunt them. The same license required to take coyotes is required to sell their pelts.

Unlicensed, non-participating observers may accompany a licensed furharvester but may not carry or use equipment, control dogs, or otherwise assist with furharvesting activities.

Residents 15 and younger may purchase a junior furharvester license at a reduced price. Youth 13 and younger accompanied by a licensed furharvester are exempt.

FURHARVESTER LICENSE EXEMPTIONS

The following persons are not required to have a furharvester license:

- owners of land or tenants of land leased or rented for agricultural purposes, and immediate family members living with them, while furharvesting on this land;
- residents 13 and younger accompanied by a licensed furharvester;
- legally-defined Native American Kansas residents (must apply for free license);
- nonresidents using field trial permits issued by KDWP.

This applies to furharvesting only; a furharvester license is required of these exempt individuals when selling furbearers or their pelts.

LEGAL EQUIPMENT

Furbearer and Coyote Hunting – firearms (except fully automatic) and archery equipment. Air rifles are not firearms and may not be used to hunt furbearers.

Furbearer and Coyote Trapping – smooth-jawed foothold traps (except that all types of foot-hold traps may be used in water sets), body-gripping traps, box traps, cage traps, snares, colony traps, and deadfalls.

ARTIFICIAL LIGHT

Furbearers may be taken at night, but use of artificial light, including optics that project or amplify light, is prohibited except for the following: Hand-held, battery-powered flashlights, hat lamps, or hand-held lanterns may be used with .17 and .22 rimfire rifles and handguns to take trapped furbearers, trapped coyotes, or furbearers treed by dogs.

Laser sights may be used in taking furbearers treed by hounds. Artificial light, scopes and equipment that amplify visible light, and thermal imaging scopes and thermal imaging equipment may be used to hunt coyotes during the night vision season only. All other use of artificial light is prohibited.

SPECIAL EQUIPMENT

Calls, lures, baits, and decoys may be used to take furbearers and coyotes.

TRAP SIZE RESTRICTIONS

The following may only be used in water sets: body-gripping traps with inside jaw-spreads 8 inches or greater; and foothold traps with outside jaw-spreads greater than 7 inches. Measurements should be taken across the jaws of both trap types at a 90-degree angle.

“Water set” means any trapping device in which the gripping portion is placed at least half-submerged in flowing or impounded waters and remains in contact with the water.

SNARES

Snares are prohibited in dryland sets within 50 feet of the outside edge of a public road or within five feet of a fence bordering a public road. Landowners and tenants or their family members or agents may use snares in rights-of-way adjacent to their lands.

TRAP TAGGING & TENDING

All traps, including snares and deadfalls, must be tagged with the user's name and address or department-issued KDWP number. They must be tended and inspected at least once every day.

PELT TAGGING

Bobcats, otters and swift foxes must be tagged within seven days of seasons' end. Pelt tagging is accomplished by taking the animal or its pelt to a KDWP office during operating hours, or by contacting the local wildlife biologist or natural resource officer and making individual arrangements. It is recommended tags be kept with mounted specimens.

FIELD TRIALS

Coyotes, gray foxes, opossums, raccoons, and red foxes (wild or pen-raised) may be used for field trials by permit from KDWP.

ANIMAL DAMAGE CONTROL

Except for spotted skunk, furbearer pelts and carcasses may be kept after damage control activities if control effort is done during trapping season and the person doing it is under the season bag limit and has a furharvester license (if required), or the person doing damage control outside established seasons has a wildlife control permit issued by KDWP.

HABITAT PROTECTED

It is unlawful to destroy any muskrat house, beaver dam, mink run, or any hole, den, or runway of any furbearer, or to cut down or destroy any tree that is the home or refuge of any furbearer. However, owners and legal occupants of land may cut down trees or kill furbearers found in or near buildings, or animals doing damage if non-lethal efforts have failed.

DISPOSAL

A fur dealer's license is required to buy raw pelts of furbearers or coyotes, and furharvesters may sell raw pelts only to licensed fur dealers. A furharvester's license is required to sell furbearers, even if taken on one's own land.

Skinned carcasses and meat of furbearers may be sold or given away, and raw furs, pelts, or skins of furbearers may be given away if a written notice including the seller's or donor's name, address, and furharvester license number accompanies the carcass, pelt, or meat. A bobcat, otter, or swift fox tag shall meet this requirement.

Live, wild-caught furbearers and coyotes may not be sold or purchased in Kansas.

Restrictions above apply to Internet sales.

BEST MANAGEMENT PRACTICES (BMPs)

Let science help guide your next trap purchase. Trapping BMPs identify traps that address the welfare of trapped animals, while allowing for the efficient, selective, safe, and practical capture of furbearers. BMPs were developed through field research on actual traplines, and exist for all furbearer species in KS. They were developed by the Furbearer Resources Technical Work Group of the Association of Fish and Wildlife Agencies and can be viewed at: furbearermanagement.com. Other publications including trapping guides, articles, research and survey reports can also be found at the above-listed link.

FURBEARERS AND COYOTES

SEASON/LIMITS

HUNTING & TRAPPING

Species: Badger, bobcat, mink, muskrat, opossum, raccoon, swift fox, red fox, gray fox, striped skunk, weasel

Season Dates (statewide):

Nov. 15, 2023 - Feb. 29, 2024

Season Limit: No limit

NOTE: All furbearer hunting, trapping, and running seasons now begin at 12:01 a.m. on opening day and close at midnight of closing day.

TRAPPING ONLY

Species: Beaver and Otter

Season Dates (statewide):

Nov. 15, 2023 - March 31, 2024

Season Limit: No limit on beaver. Ten (10) otters per trapper; however, unit limits apply. See map for unit-specific bag limits.

Otter pelts must be tagged within seven days of the end of the trapping season.

Trappers may keep up to 10 muskrats taken incidentally in beaver sets after the muskrat season has closed.

RUNNING

Species: Bobcat, opossum, raccoon, red fox, gray fox

Season Dates (statewide):

March 1 - Nov. 8, 2024

Legal hours for running furbearers are 24 hours daily. Furbearers cannot be killed or taken during the running season. A furharvester license is required to run furbearers.

COYOTE

Season Dates (statewide): All year.

Season Limit: None

Night Vision Season: Jan. 1 - March 31

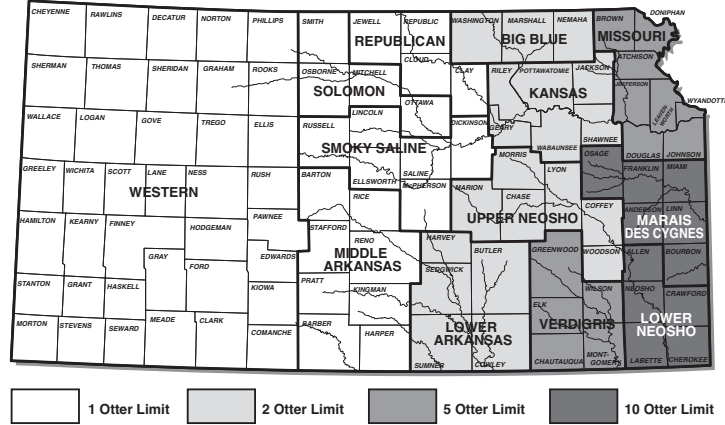

Artificial light, scopes and equipment that amplify visible light, and thermal imaging scopes and equipment may be used to hunt coyotes. Use of this equipment is not permitted on department lands and waters, including Walk-in Hunting (iWIHA/WIHA) areas, and may not be used in conjunction with a vehicle. Night Vision Equipment Permit required in addition to hunting license requirements. No other species may be taken during this season with this equipment.

Permits Required: Furharvester license is required to trap and sell; hunting license is required to hunt and sell.

Other: Motor vehicles and radios in vehicles may be used to hunt coyotes only.

OTTER MANAGEMENT UNITS

Trappers may take up to five (10) otters in any combination of units as long as they do not exceed the unit bag limit for any unit.

BOBCAT PERMIT (NONRESIDENT)

Season Dates (statewide): Nov. 15, 2023 - Feb. 29, 2024

Permit Limit: One bobcat per permit
Methods Of Take: firearm (except fully automatic) and archery equipment. Trapping is not allowed with this permit.
Shooting Hours: One-half hour before sunrise to one-half hour after sunset.

Tagging: Carcass tags must be filled out and attached at the site of kill. Export tags must be obtained from KDWP within seven days of bobcat harvest.

The nonresident bobcat permit allows the take of one (1) bobcat by hunting for \$102.50 without having to purchase a \$252.50 nonresident furharvester license.

EASTERN SPOTTED SKUNK WATCH

This elusive mammal is considered rare and all sightings should be reported. Spotted skunks, more weasel-like in body shape than the familiar striped skunk, have stripes that are broken in pattern, giving them a “spotted” appearance. They may occur statewide. **Please report all sightings – including roadkill, trail camera photos, and inadvertently trapped animals – by emailing rare.species@ks.gov or contacting the KDWP Pratt office at (620) 672-5911.**

When possible, include photos and location information. Inadvertent capture of a spotted skunk shall not be deemed illegal if it is immediately reported and/or released.

DISPLAY OF CARCASSES

It is unlawful for any person to display the carcass of a coyote. “Carcass” means the body of the coyote, either as part or as a whole, and either with the skin intact or removed. The skin of the coyote, when removed from the body, shall not be considered part of the coyote.

This statute does not apply to the display of the carcass of a coyote at a fur market or the use of the carcass of a coyote for educational and training purposes.

PUBLIC HUNTING

PUBLIC LANDS AND THEIR USE

Some areas listed here have special restrictions in addition to KDWP regulations on department lands and waters. For more information, contact individual offices.

Brochures and complete public lands regulations are available by phoning (620) 672-5911 or from the KDWP website at www.ksoutdoors.com.

The commercial guiding of hunters is not allowed on public lands owned or managed by KDWP, including Walk-in Hunting Access (WIHA) and iWIHA areas. Camping is allowed in designated areas only. Target shooting is allowed only at designated shooting ranges. Baiting for any purpose, other than furharvesting, is prohibited on public lands and WIHA/iWIHA areas. Only two portable blinds or stands are allowed per hunter. Portable blinds may not be left unattended overnight. Stands and portable blinds must be marked with the owner's name and address or KDWP number. Decoys may not be left unattended overnight.

On some wildlife areas, dove fields may be designated as non-toxic shot only by posted notice. See **Page 37** for more information.

Use of trail cameras is prohibited on all public lands and WIHA/iWIHA areas.

Camping is allowed only for up to seven consecutive days on designated public lands. Persons camping up to the allowance must leave the department-managed property for at least five days before they may return to camp again on that area.

PENDING REGULATIONS (SEE KSOUTDOORS.COM FOR FINAL VOTES)

Staff have proposed the following regulation changes. If approved by the KWP Commission, these regulations would go into affect beginning with the 2024-2025 seasons.

1. Required electronic check-in/check-out at all KDWP properties, excluding WIHA, for hunting only.
2. Restrict nonresident waterfowl hunting on **state and federal public lands only** to Sundays, Mondays, and Tuesdays throughout the teal, regular duck and goose seasons. This restriction would not apply during the Spring Conservation Order.

DEFINITIONS

NOVICE/YOUTH: A novice/youth hunter is anyone 17 or younger, or persons who have not possessed an annual hunting license or permit in the past three years. Age restrictions subject to location; contact KDWP staff for area-specific restrictions.

MENTOR: A mentor must be a licensed adult 18 or older and supervise a minimum of one novice or youth.

CLOSED TO ALL HUNTING: Properties so described could be open to special hunts.

REFUGE: Portions of properties may be designated as refuges during specific periods of the year or year-round. Access and activity restrictions are for refuge management and special hunts.

Boating: Yes.

Equipment Restrictions: Archery only in units 1, 21, 23 and portions of 22 and 47.

Other: Alcohol prohibited in Unit 1. The bison exhibit in Unit 1 is closed to all activities. For cabin reservation, phone (620) 431-0380.

Neosho WA

Phone: (620) 449-2539

Location: 1 mile E of St. Paul.

Acres: 1,498 land, 1,748 wetland.

Camping: Yes, in designated areas.

Boating: Yes.

Equipment Restrictions: Non-toxic shot only. No centerfire rifles.

Other: Electronic check-in/check-out required through the gooutdoorskansas app or ksoutdoors.com/checkin. Shooting from levees and dikes prohibited. Refuge closed to all activity Sept. 1-March 31. Youth/Mentor: Pool 8 for waterfowl on holidays, Saturday, and Sunday. Pool 8 open to public on weekdays.

Osage SFL

Phone: (785) 273-6740

Location: 3 mi. S of Carbondale.

Acres: 366 land, 140 water.

Camping: Yes, in designated areas.

Boating: Yes, fishing and hunting only.

Equipment Restrictions: Shotgun and archery hunting only.

Otter Creek WA

Phone: (620) 637-2748

Location: 4 mi. W, 2 N of Burlington.

Acres: 1,472.

Camping: No.

Boating: Yes.

Equipment Restrictions: Non-toxic shot for all shotguns. Shotgun, archery, and muzzleloader hunting only.

Shoal Creek WA

Phone: (620) 231-3173

Location: 1/2 mi. S of Galena.

Acres: 32.

Camping: No.

Boating: NA.

Equipment Restrictions: Shotgun and archery hunting only.

Other: Off-road vehicle and horse use prohibited. Alcohol prohibited.

PUBLIC HUNTING

Spring River WA

Phone: (620) 231-3173
Location: 3 mi. E, 1/4 N of Crestline.
Acres: 424.
Camping: Yes, in designated areas.
Boating: NA.
Equipment Restrictions: None.

Toronto WA

Phone: (620) 583-6783
Location: 3 mi. NW of Toronto.
Acres: 4,766 land, 2,800 water.
Camping: No.
Boating: Yes.
Equipment Restrictions: None.

Wilson SFL

Phone: (620) 637-2748
Location: 1 mile S of Buffalo.
Acres: 90.
Camping: Yes, in designated areas.
Boating: Yes, fishing and hunting only.
Equipment Restrictions: Shotgun/Archery Only.

Woodson SFL

Phone: (620) 637-2748
Location: 5 mi. E of Toronto.
Acres: 2,885 land, 430 water.
Camping: Yes, in designated areas.
Boating: Yes, fishing and hunting only.
Equipment Restrictions: None.

FEDERAL AREAS (Call location with questions about federal areas)

Cimarron National Grasslands

Phone: (620) 697-4621
Location: N of Elkhart.
Acres: 108,000.
Camping: Yes, in designated areas.
Boating: NA.
Equipment Restrictions: None.

Flint Hills NWR

Phone: (620) 392-5553
Location: 5 mi. N of Hartford.
Acres: 18,500.
Camping: NA.
Boating: NA.
Equipment Restrictions: Non-toxic shot only, centerfire rifles and handguns prohibited.
Other: No furbearer or coyote hunting or trapping. Other regulations may be in effect. Daily Hunt Permit required.

Hulah Reservoir

Phone: (918) 349-2281
Location: Scattered tracts E and W of Elgin. (Most of area in Oklahoma.)
Acres: 844.
Camping: NA.
Boating: NA.
Equipment Restrictions: None.

Kanopolis Reservoir

Phone: (785) 546-2294
Location: 7 mi. W, 3 mi. N of Marquette.
Acres: 13,000 acres.
Camping: Primitive camping available in Riverside and Venango parks.

Boating: Yes.

Equipment Restrictions: All game cameras, tree stands and blinds left on the wildlife area overnight must be tagged with a free hunting equipment permit that can be obtained at the Information Center downstream of the Kanopolis Dam. Archery/shotshell hunting only on wildlife area downstream of the dam.

Kirwin NWR

Phone: (785) 543-6673
Location: 5 mi. S, 5 mi. E of Phillipsburg.
Acres: 5,700.
Camping: NA.
Boating: NA.
Equipment Restrictions: Deer hunting restricted to archery only. Non-toxic shot only
Other: Other regulations may be in effect.

Marais des Cygnes NWR

Phone: (913) 352-8956
Location: 7 mi. north of Pleasanton
Acres: 7,400.
Camping: NA.
Boating: Yes, motorized boats prohibited on portions of the river.
Equipment Restrictions: Non-toxic shot only
Other: Special Hunts drawing for archery deer and spring turkey hunting. No firearm deer hunting during firearm deer season.

Pomona Reservoir

Phone: (785) 453-2202
Location: 20 mi. W of Ottawa.
Acres: 4,500.
Camping: NA.
Boating: Yes.
Equipment Restrictions: None.

Quivira NWR

Phone: (620) 410-4011
Location: 13 mi. NE of Stafford.
Acres: 8,000.
Camping: NA.
Boating: NA.
Equipment Restrictions: Non-toxic shot only.
Other: Waterfowl, quail, pheasant, dove, squirrel and rabbit is permitted. Deer hunting is allowed on the Refuge under a limited-draw system. Permits are administered through the Special Hunts program at [/ksoutdoors.com/Hunting/Special-Hunts-Information](https://ksoutdoors.com/Hunting/Special-Hunts-Information)

HUNT THE FLINT HILLS REGION

Geary County Convention & Visitors Bureau
 222 W 6th ST - Junction City, KS
 junction.city.org - 785.238.2885 EXT. 209

Home of the largest amount of KS Dept. of Wildlife and Parks public hunting land in the state. Geary County is the perfect place to go for any hunting trip.

Norton Kansas

WWW.DISCOVERNORTON.COM

Prairie Dog State Park and Sebelius Lake offer stunning views, camping, fishing, and boating. Norton County offers various hunting locations. The City of Norton offers historic downtown tours, local museums, casual dining, unique shops, golf and multiple parks. We welcome you to visit and invite you to stay!

AQUATIC INVASIVE SPECIES

STOP AQUATIC HITCHHIKERS!

Hunting is more than a hobby; it's a way of life. Yet it's being threatened by the introduction of non-native aquatic invasive species (AIS). Help keep your favorite hunting spots free of these harmful plants and animals by remembering to **clean, drain, and dry** all equipment every time you use it.

Clean

Immediately remove all plants, animals and mud from waders, decoys, boats and blinds before departing.

Drain

Remove all water from decoys, boat, waders, motor and bilge before departing.

Dry

Allow all equipment to completely dry or wash using high pressure hot water before using again.

AIS OF CONCERN

Select AIS can pose distinct concerns to waterfowl hunters. Waders, decoys, and boating equipment that are not clean, drained, and dried can contribute to the spread of AIS, including:

Zebra mussels

Can reach high densities, causing problems for submerged equipment. Their sharp shells can cut the unprotected skin of humans or pets. Zebra mussels also concentrate toxins such as selenium and avian botulism that can harm waterfowl.

Eurasian watermilfoil

Forms a dense canopy that hinders recreational activities.

Invasive Phragmites

A fast-growing, semi-aquatic plant that forms impenetrably dense stands of plants 12-plus feet high. Stands of invasive phragmites degrade wetlands and wildlife habitat and impede the movement of wildlife, hunters and boats.

INVASIVE PHRAGMITES

HOW TO RELEASE A DOG FROM A LAND TRAP

ATTENTION HUNTERS

Unless otherwise posted, trapping is allowed on KDWP managed lands open to public hunting. Walk-in Hunting Access (iWIHA/WIHA) lands are open only to hunting but landowners may provide individuals permission to trap. Responsible trappers take precautions to avoid capturing nontarget animals including dogs, but accidents happen. As a dog owner, you should know the basics about trapping so that if your dog does encounter a trap in the field, you'll know how to react. There are three trap types of which you should be aware.

BODY-GRIPPING TRAPS

These traps are designed to strike small to medium-sized animals on the neck or body and kill them quickly and humanely. Various sizes exist, but those with a jaw spread 8 inches or greater – when measured from the outer edges at a 90-degree angle – may be used only in water sets. The size 220 (7.5 x 7.5 inches) is most commonly used on land in Kansas, and is usually intended for raccoons. If your dog is captured in one of these traps, it can be saved, but you must react quickly and understand how the trap functions.

The only way to open the jaws on this trap is to first compress the springs. It is impossible to pull the jaws apart otherwise. Prior to

compressing the springs, try to rotate the trap to the sides of the dog's neck so the jaws are not pressing on its windpipe. This will buy you a lot more time to compress the springs, the first of which should be secured with the attached safety hook. Once this is accomplished, you should be able to remove the trap by compressing the second spring with one hand while squeezing the jaws together (open) with the other. If this fails, compress the second spring and attach the safety hook to it as you did the first. The springs on larger traps may be difficult or impossible to compress by hand, but by using a dog leash, belt, or rope, you can create a pulley system that will allow you to accomplish the task. Once the springs are compressed, the trap will easily open allowing you to free the dog.

BODY-GRIPPING TRAP SETS

Body-gripping traps may be used in unbaited trail sets or baited "bucket" or "cubby" sets.

1. Dog Captured.

Concepts and some images in this section courtesy of the Wisconsin Trappers Association, the Wisconsin Department of Natural Resources, the Montana Department of Fish, Wildlife and Parks, and the Nova Scotia Natural Resources.

2. Compress springs slightly with hands.

3. Rotate trap off windpipe.

4. Compress one spring with hands or rope and secure its safety latch.

5. Compress second spring and pull trap jaws open or secure its safety latch.

HOW TO RELEASE A DOG FROM A LAND TRAP

FOOTHOLD TRAPS

These traps are designed to capture the target animal by the foot and hold it alive until the trapper arrives to remove it. It is critical to understand that these traps are designed to capture animals with minimal or no injury, and your dog is NOT in a life threatening situation if captured in one. A dog can usually be released from a foothold trap with nothing more than a little soreness and perhaps a slight temporary limp.

You must remain calm and read your dog's temperament in order to safely release it. In most cases, you are at greater risk of getting bitten and harmed by your dog than your dog is of being harmed by the trap. Therefore, it is important to let the dog calm down for a minute prior to taking action. When the dog is calm enough to safely approach, grab it securely by the collar, jaws, or base of the head so it can't bite at you, place one foot on either trap lever, and depress the levers to

release the dog. Recognize that stepping on the trap levers may hurt the dog momentarily, so firmly control the head when you do this. Do not reach down and attempt to release the trap with your hands, potentially putting your hands, arms, and face at risk of bite, unless you are accompanied by someone who is controlling the dog's head. If assisted, this is best accomplished by attaching a leash to the dog and stretching its head away from the trapped foot.

1. Compress the levers with your feet. This will open the trap and release your dog.

FOOTHOLD TRAP SETS

Foothold traps are usually covered with dirt and can be hard to detect, but bones, small holes or hanging or unusually placed feathers or fur may be an indicator.

CABLE SNARES

Modern snares are constructed of steel cable and a passively functioning, one-way lock that tightens only as an animal pulls against it. They can be set to live-restrain or to kill, depending on the size of the cable, the type of lock, and whether the animal can tangle around trees or brush. The animal's reaction to the snare is also important. Most dogs that have been tied out or broke to a lead will quickly stop pulling and sit down. In this situation or if the dog is in a live-restrain snare, the dog owner will usually have plenty of time to release the dog. Conversely, if the dog pulls against a kill snare aggressively or hits it at a full run, even if broken to lead, a quick response may be necessary in order to save the dog.

To release your dog from a snare, first restrain your dog or detach the snare's anchor in order to relax the cable, then follow the cable to your dog's neck. This is where the lock will be located. By grabbing the lock with one hand and the cable just above the lock with the other, you should be able to work the cable back through the lock, thereby enlarging the loop and releasing the dog. Or if the lock is hinged, you may need to grab the upper portion of the lock with one hand and compress the hinge with the other in order to release the cable. Pliers may be helpful for grabbing the lock, but it will probably take cable cutters or lineman's pliers to cut the cable. Regardless, if the loop has really tightened around the dog's neck, which it will be if the dog is in immediate danger, it will be very difficult to maneuver pliers between the cable and the dog's neck, and time is best spent working the cable back through the lock.

SNARE SETS

Snares are usually set in trails and hard to detect so that an animal walking down the trail will put its head through the loop.

1. Example of snare and typical locks you may encounter on snares.

2. Rotate lock and feed cable back through lock.

ADDITIONAL CONSIDERATIONS

- When securing permission to hunt on private land, always ask the landowner if anyone is trapping on the property.
- Take a minute to handle and familiarize yourself with modern traps when the opportunity arises (i.e. furharvester booth at outdoor show, etc.)
- Do not tamper with lawfully set traps or captured wild animals. The law that protects hunters from harassment also protects trappers from these acts.
- If your dog is captured in a trap on an area open to public hunting, report the incident to the wildlife area manager or to the Emporia Research Office at (620) 342-0658.

Regulated trapping occurs in the fall and winter and is an important component of furbearer management in Kansas. Tens of thousands of predatory furbearers and coyotes are harvested by trappers annually. It's difficult to measure the cumulative impact of this removal on upland birds and small game, but it's undoubtedly very beneficial. Trapping is regulated in much the same way as hunting, and trappers who were born after July 1, 1966 must have passed a furharvester education course, where they are taught how to trap responsibly and ethically. Most traps in use today have passed international humaneness standards for injury, effectiveness, and safety, and are designed to either live-restrain without injury or quickly kill the captured animal.

PUBLIC PROGRAMS

WALK-IN ACCESS PROGRAMS (WIHA/iWIHA)

Walk-In Hunting Access (WIHA) and iWIHA areas provide opportunities for landowners and hunters alike. Landowners who participate in this program benefit financially through short or long term, seasonal leasing of a properties' hunting rights to the Kansas Department of Wildlife and Parks (KDWP). In turn, this program provides more than one million acres of hunting opportunities annually to hunters.

WIHA/iWIHA areas operate much like any public wildlife area, except each property remains in private ownership and use is restricted to hunting only. Established hunting seasons and regulations apply on all WIHA/iWIHA areas. Trapping is not a part of WIHA/iWIHA programs.

Participating landowners receive payments that vary based on access period, location, habitat quality/diversity, and size of enrolled properties. A variety of lease periods are available to meet each landowner's management goals. No public access is allowed on WIHA/iWIHA areas outside of the lease period(s). And, KDWP posts WIHA/iWIHA signs and regulations on the property, and patrols the area.

Almost anyone who owns or leases land with good wildlife habitat can qualify, including resident landowners, absentee landowners, tenant farmers, estate managers, trust managers, and others who manage private land.

Hunters using WIHA/iWIHA areas may not cross boundaries onto neighboring properties; Interior property boundaries will be marked. Parking is limited; roads, gates and driveways must not be blocked. Farm equipment, houses, and other sensitive infrastructure will also be marked with Safety Zone signs reminding hunters to avoid these areas. If valid safety concerns exist, hunting opportunities may be limited.

An annual Hunting Atlas is available from KDWP offices, license vendors, and online at ksoutdoors.com. Maps are continuously updated on KSOutdoors.com/Hunting/Where-to-Hunt.

Landowners:

Contracts are simple and you can cancel at any time. Rates vary based on access period, location, habitat quality/diversity, and size of enrolled properties. Fall lease payments are made around December 1. Spring-only leases are paid around May 1.

iWIHA

iWIHA helps landowners limit the number of hunters on their property on any given day, while still receiving competitive rates for participating. Hunters are required to check-in and out of each tract.

More information can be found at

WIHA/iWIHA Application

I am interested in enrolling my property in the WIHA/iWIHA program. Send me more information.

Name: _____

Address: _____

City: _____

Day Phone: _____

Evening Phone: _____

Property is located in: _____
(County)

Send to:

Attn: Wes Sowards
KDWP
512 SE 25th Ave.
Pratt, KS 67124

For more on the WIHA/iWIHA programs, visit KSOutdoors.com/private-lands or email wes.sowards@ks.gov.

Landowners:

Similar to WIHA, the WIFA program leases ponds and streams for fishing access. Earn extra dollars from your farm or ranch land by enrolling your fishing waters in this program.

Highlights of the program:

- KDWP pays you to allow fishing access on your land.
- KDWP posts signs to inform anglers of property boundaries.
- KDWP game wardens patrol the land.
- Access is by walk-in only – no vehicles are allowed.
- State law limits normal liability.
- A printed and online atlas shows all properties enrolled.
- Visit KSOutdoors.com/private-lands for more information.

PUBLIC PROGRAMS

SPECIAL HUNTS

Special hunts offer high-quality hunting opportunities. The majority of hunts are on public areas traditionally closed to hunting. Some hunts are restricted to Kansas Residents ONLY while some are open to both Resident and Non-Resident applicants. While providing excellent opportunities to introduce new hunters to the sport, special hunts have also proven popular with current hunters. Special hunts are not designed to provide a guaranteed limit but appeal to hunters wanting a quality experience afield. Persons with impaired abilities also find this program offers a chance to participate in hunting. (See "Hunt From Vehicle Permits" for those who qualify for disability permits.) Some hunts require youth or novice hunter participation.

If Special Hunts interest you, view Special Hunts at ksoutdoors.com under "Hunting" or call (785) 628-8614 for assistance. Make sure you understand the type of hunt being offered before making online application. There are no application fees, but purchase of appropriate licenses, permits, tags, and stamps are required.

Apply online at ksoutdoors.com. If no Internet access is available, application can be made over the phone by calling (785) 628-8614. Ask for Special Hunts. For questions on specific hunts, contact the local area office where the hunt is offered.

There will be three application deadlines and three draws for Special Hunts: Draw 1 for hunts in September and October, Draw 2 for hunts in November, December, and Draw 3 for hunts in January and February. Applicants may apply for all three hunt periods beginning **July 8, 2023**, and will have three choices for each species per draw period. Hunters selected by lottery draw will receive more information prior to their hunt.

A number of other special hunts, not managed by the Special Hunts program, are listed online at ksoutdoors.com. In addition to these special hunts, youth/disabled seasons also offer unique hunting opportunities for qualifying hunters.

KANSAS HUNTERS FEEDING THE HUNGRY

Kansas Hunters Feeding the Hungry (KSHFH) provides venison to needy families. Hunters can donate deer to participating processors at little or no charge. Donations from churches, clubs, businesses, and individuals cover the costs of processing, packaging, and freezing the meat. Donations may be sent to Kansas Hunters Feeding the Hungry, 17811 Donahoo Road, Tonganoxie, KS 66086-5309.

KSHFH is co-sponsored by the Resource Conservation and Development Councils of Kansas and KDWP. For more information, visit the organization's website, www.kshfh.org, phone (913) 485-9622, email tonyd@kshfh.org, or write to the above address.

Game given to another person must be accompanied by the donor's written name, address, permit, or transaction number, and signature, as well as the date of donation.

DISABILITY ASSISTANCE PERMITS

Anyone with a permanent physical disability that prevents him or her from hunting safely may apply for a Disability Assistance Permit. The permit allows a designated, licensed person to assist in the harvest of game while accompanying the permit holder. (This privilege also applies to fishing.) For more information or applications, contact the Kansas Department of Wildlife and Parks, Law Enforcement Division, 512 SE 25th Ave., Pratt, KS 67124, (620) 672-5911.

HUNT FROM VEHICLE PERMITS

Persons certified by a physician as having a permanent disability may be eligible for special permits allowing them to hunt from a parked vehicle. For more information on these permits, contact a KDWP office. Migratory game birds cannot be hunted from a vehicle (except a boat not under way), even with a disability permit.

Your purchase of a hunting license is an investment in the future of Kansas wildlife. The Kansas Department of Wildlife and Parks uses your license dollars and funds from the Federal Aid in Wildlife Restoration Program (Pittman-Robertson) to manage the diverse wildlife resources of Kansas.

The Pittman-Robertson program is financed by hunters through federal excise taxes on sporting equipment such as firearms and ammunition. With these dollars, the department can continue to conserve and enhance Kansas' natural heritage, its wildlife and its habitats – and ensure future generations the benefits of the state's diverse, living resources.

This program receives Federal financial assistance from the U.S.

Fish and Wildlife Service. Under Title VI of the Civil Rights Act of 1964, Section 504 of the Rehabilitation Act of 1973, Title II of the Americans with Disabilities Act of 1990, the Age Discrimination Act of 1975, Title IX of the Education Amendments of 1972, the U.S. Department of the Interior and its bureaus prohibit discrimination on the bases of race, color, national origin, age, disability or sex (in educational programs). If you believe that you have been discriminated against in any program, activity or facility, or if you desire further information please write to:

The U.S. Fish and Wildlife Service, Office for Diversity and Civil Rights Programs-External Programs, 4040 North Fairfax Drive, Suite 130 Arlington, VA 22203.

CONTROLLED SHOOTING AREAS

Controlled Shooting Areas (CSAs) are privately-owned hunting areas licensed by KDWP that provide an extended upland game bird hunting season. The CSA season runs from Sept. 1-April 30.

A special CSA hunting license may be purchased that is valid only on Kansas CSAs, or hunters may hunt on CSAs with a current Kansas hunting license. Hunter education certification is not required on CSAs with a CSA license.

Hunter access to CSAs is through permission of the owner/operator only. A directory of CSA services is also available at www.huntkansas.org.
