Fishing Atlas
Public Fishing Access

CHECK OUT OTHER FISHING INFORMATION AT OUR WEBSITE: ksoutdoors.com
F.I.S.H. Area Rules

Fishing Impoundments and Stream Habitats (F.I.S.H.) sites are leased from private landowners and are typically open to public fishing from March 1- Oct. 31, but some properties are open year-round. The F.I.S.H. program provides anglers increased opportunities to enjoy fishing on the state’s streams and small impoundments. Funding for the program is provided through fishing license revenues and Sport Fish Restoration Funds. Please observe all rules and regulations, and remember that common sense and ethical behavior will influence the future of the program.

The following guidelines will help maintain a good relationship between landowners and anglers using F.I.S.H. areas:

1. Look for the F.I.S.H. signs (pictured on Page 3) before entering the property. Sites may have been withdrawn from the program. If you do not see signs, do not enter.

2. Obey lease boundaries. Stay within 50 feet of the stream or impoundment shoreline. If the F.I.S.H. property is a stream, fish only on the side of the stream that is posted as an access site. Do not walk or fish on adjacent property.

3. Respect the rights of landowners, as well as others using the area. Treat the land as if it were your own.

4. Take all trash with you when you leave. If someone before you has irresponsibly left trash, please take a moment and pick it up, too.

5. Do not open gates or enter properties with vehicles unless authorized. Park along the road or in designated parking areas. Leave field-access, drives, and rural roads open so that landowners moving large implements may pass.

6. Avoid stretching fences when crossing them, and use fence stiles where available.

7. Do not attempt to contact cooperating landowners to ask about fishing other portions of their land. Landowners often enroll in the program to reduce contact with anglers.

Regulations governing F.I.S.H. area use:

• Most F.I.S.H. sites are open to public access from March 1 through October 31. (Some are open year-round, see legend.) Impounded F.I.S.H. waters have a creel limit of two channel catfish, a creel limit of two largemouth bass, and an 18-inch minimum length limit on largemouth bass. Otherwise, all Kansas fishing regulations and statewide creel limits apply. It’s especially important for anglers using the sites to respect and follow the rules that apply on F.I.S.H. properties. You do not need to contact the landowner for permission on F.I.S.H. waters.

• The following regulations are in effect on F.I.S.H. waters: The discharge of firearms is prohibited (KAR 115-8-5); Seining is prohibited on all F.I.S.H. waters, and trotlines and setlines are prohibited on impoundments under 1,201 acres in size (KAR 115-8-6); No swimming (KAR 115-8-8); Camping by posted notice only (KAR 115-8-9); No pets, except on a leash (KAR 115-8-10); No horseback riding (KAR 115-8-11); No stocking or release of wildlife, including the dumping of live bait (KAR 115-8-12); Vehicles shall be operated only as authorized (KAR 115-8-13); No fireworks (KAR 115-8-14); No unauthorized fires (115-8-15); No littering (KAR 115-8-18); No cereal malt beverages or alcoholic liquor (KAR 115-8-19); Destructive acts such as digging or destroying signs or vegetation is prohibited (KAR 115-8-20).

• All Kansas boating laws are in effect on F.I.S.H. waters.

Due to drought conditions and/or renovation, some properties may be dry or lower than normal. Water quality and vegetation may vary among properties. The best time to fish these properties is spring. During summer and fall, the best way to fish these properties may be from belly boats and inflatable pontoon boats where boating is allowed.
Looking at the Fishing Atlas

The maps in this atlas show a variety of public fishing areas, as well as public lands across Kansas. F.I.S.H. areas are privately-owned ponds or streams the Kansas Department of Wildlife, Parks and Tourism (KDWPT) has leased and opened to public fishing. Each map also shows all federal reservoirs, state fishing lakes, river access sites, and community lakes. To find fishing areas near you, consult the legend below and then locate the corresponding access locations indicated on the maps. With this atlas, you can locate just about any type of fishing you desire.

The maps on the following page show which counties have federal, state, or community fishing opportunities, as well as those with F.I.S.H. sites.

Community lakes are impoundments owned by a city or county government. Those community lakes that are managed for public fishing through the department’s Community Fisheries Assistance Program (CFAP) and state fishing lakes are labeled with the impoundment name and marked by the blue fish symbol. There are no additional fees to fish at state fishing lakes or community lakes in the CFAP program. Community lakes not in the CFAP program are also labeled with the impoundment name and are marked by a red octagon symbol as local governments managing these lakes may require a permit and/or additional fees for fishing access.

Most F.I.S.H. areas are open to fishing from March 1 to Oct. 31, but some are open year-round, see legend. Accessing the F.I.S.H. properties prior to or after the indicated access period is prohibited.

These programs help KDWPT provide anglers with additional opportunities for outdoor recreation, strengthening our state’s fishing tradition.

Maps are at a scale of 1:277,500 (1 inch represents 4.38 miles) and were compiled according to conventional cartographic standards using the most reliable information available. KDWPT does not guarantee freedom from errors or inaccuracies and disclaims any legal responsibility or liability for interpretations made from these maps, or decisions based thereon.

This atlas is a continual work in progress and any comments, suggestions, or corrections are welcomed. Any such comments may be submitted to kdwpt.kdwptinfo@ks.gov.
FISHING REPORTS AND NEWSLETTERS

www.ksoutdoors.com/Fishing/Fishing-Reports

Fishing reports are available online and provide information regarding seasonal fishing trends on your favorite lakes and reservoirs. Anglers will also find the current Fishing Forecast and access to Google Earth files regarding fish attractors.

Google Earth files showing locations of fish attractors, like the “Fish Cubes” shown here at Wilson Reservoir, can be accessed on the “Fishing Reports” page.

Get the inside scoop on sampling efforts, lake management and updates about your favorite fishing hole by reading newsletters from district fisheries biologists. You can even sign-up to receive area-specific newsletters via email. Use the link below to navigate to the “Newsletter Sign-up Forms.”

www.ksoutdoors.com/KDWPT-Info/News
BECOME A CERTIFIED FISHING INSTRUCTOR

If you have a passion for the outdoors and enjoy sharing your knowledge with others, a new program needs your help. The Angler Education Program is designed to recruit individuals who have a passion for fishing and want to share it with others. The Kansas Department of Wildlife, Parks and Tourism (KDWPT) has partnered with Fishing’s Future, a not-for-profit group with a mission to reconnect kids with nature, strengthen family bonds, and instill a responsibility for stewardship of our natural resources.

Similar to KDWPT’s Hunter Education Program, Angler Education will certify instructors who will become volunteers of the State of Kansas. Certification events will qualify instructors to teach everything from class design, and working with children, to environmental stewardship, knot tying, fish identification, and casting.

Certified instructors may work alone or with other instructors to teach general fishing information, specific fishing techniques, or just take families fishing.

To become a Kansas Angler Instructor, visit fishingsfuture.org and look for upcoming certification events in your area.
Reservoirs, State Fishing Lakes and Other Waters

REGION 1 (WEST)
Barber SFL (55 F10), 77 acres, Upper End Periodically Dry
Cedar Bluff Reservoir (28 B11), 6,869 acres, ANS Alert
Clark SFL (52 D11), 300 acres, ANS Alert
Concannon SFL (39 C3), 50 acres
Ford SFL (40 G9), 45 acres
Glen Elder Reservoir (6 J12), 12,586 acres, ANS Alert
Goodman SFL (28 H10), 40 acres, Periodically Dry
Hodgeman SFL & WA (40 C10), 87 acres, Periodically Dry
Jewell SFL (7 G1), 57 acres
Kanopolis Reservoir (31 D3), 3,550 acres, ANS Alert
Keith Sebelius (Norton) Reservoir (4 E9), 2,300 acres
Kiowa SFL (41 J3; 53 A3), 21 acres
Kirwin Reservoir (5 H4), 57 acres
Logan SFL (14 I9), 60 acres, Periodically Dry
Lovewell Reservoir (7 D2), 2,986 acres
Meade SFL (51 H4), 80 acres
Ottawa SFL (20 F7), 138 acres, ANS Alert
Pratt - Centennial Pond / Kid's Fishing Pond (42 J9), 4 acres
Rooks SFL (17 B3), 67 acres, Periodically Dry
Saline SFL (19 J6), 38 acres, Periodically Dry
Sandsage Bison Reserve Pond (38 E12), 5 acres, Periodically Dry
Scott SFL (26 C12), 115 acres, ANS Alert
Sheridan SFL (15 B6), 67 acres, ANS Alert
St. Francis Sand Pits, 5 acres
Webster Reservoir (17 B1), 3,780 acres
Wilson Reservoir (18 I10), 9,040 acres, ANS Alert

REGION 2 (NORTHEAST)
Atchison SFL (11 G5), 66 acres
Brown SFL (11 D3), 62 acres
Browning Oxbow (12 D8), 100 acres, ANS Alert
Clinton Reservoir (23 I4), 7,000 acres, ANS Alert
Clinton State Park - Lake Henry & Picnic Pnds (23 H4), 3.5 acres
Douglas SFL (23 J6), 180 acres
Fort Leavenworth - Merritt Lake (24 B8), 5 acres
Fort Leavenworth - Smith Lake (24 B8), 5 acres
Geary SFL (21 I2), 97 acres, ANS Alert
Hillsdale Reservoir (36 B8), 4,580 acres, ANS Alert
Jeffery EC Lakes (22 C9), 125/450 acres, ANS Alert, Limited Access
John Redmond Reservoir (34 J12), 9,400 acres, ANS Alert
La Cygne Reservoir (36 G11), 2,800 acres
Leavenworth SFL (23 E6), 160 acres
Lyon SFL (34 E10), 135 acres
Marais des Cygnes Wildlife Area (36 I10), 1,967 acres
Melvern Reservoir (34 F12; 35 E1), 7,000 acres, ANS Alert
Melvern River Pond (35 E1), 90 acres, ANS Alert
Miami SFL (36 F10), 101 acres
Middle Creek SFL (36 E11), 280 acres
Milford Reservoir (21 E1), 16,020 acres, ANS Alert
Milford Hatchery Supply Pond (21 G1), 100 acres
Milford State Park Pond (21 F1), 2 acres

Aquatic Nuisance Species (ANS) ALERTS: Aquatic nuisance species (ANS) pose a threat to native aquatic wildlife and plants. ANS species include the zebra mussel, New Zealand mud snail, Asian carp, white perch, purple loosestrife, saltcedar, fertile grass carp, and Eurasian watermilfoil. The areas listed above may have a red “ANS Alert” if ANS have been found there. Please consult a current Regulations Summary for more information about ANS and how to prevent their spread.
The Kansas Department of Wildlife, Parks and Tourism (KDWPT) has continued the Community Fisheries Assistance Program (CFAP) for 2019. CFAP leases the fishing rights of approximately 13,000 acres of community lakes statewide.

Community cooperators will not charge anglers additional fees to fish from the shore or from a boat, even if permits have been required in the past. State fishing license requirements still apply, and activities other than fishing at these lakes may require additional permits. KDWPT hopes removing cost barriers allows more anglers to enjoy these fishing opportunities more often. When you see the CFAP logo at your local community lake, take a friend, head on in, and wet your lines!

**Family Friendly Facility (FFF):** While all Community Fisheries Assistance Program (CFAP) lakes are great places to go fishing, some offer extra amenities to support family fishing trips. At these locations, no alcohol is allowed, there are flush toilets, security patrols are conducted regularly, security lighting is in place, and there are easily accessible fishing spots. Any CFAP lake that provides these amenities is termed a “Family Friendly Facility” (FFF) and is indicated as such in the list of CFAP lakes.

**NO ADDITIONAL FISHING FEES are charged at the following community lakes.**

The following lakes are enrolled in CFAP and do not require fees to fish from shore or boat.

### REGION 1 (WEST)
- Agra City Lake (5 E5), 7 acres, **FFF**
- Atwood Lake (2 E11), 31 acres
- Belleville - Rocky Pond (8 D7), 27 acres, **FFF**, Periodically Dry
- Beyer Sand Pits (38 E9), 18 acres
- Cimarron Grasslands Fishing Pits (49 H3), 15 acres
- Colby - Villa High Lake (14 B11), 2 acres
- Coldwater City Lake (53 F2), 250 acres
- Dodge City - Lake Charles (53 F2), 250 acres
- Dodge City – Mariah Hills Pond (40 H8), 2 acres
- Dodge City – High School Demon Lake (40 H8), 1.5 acres
- Ellis City Lake (17 I1), 30 acres, **FFF**
- Great Bend - Stone Park Lake (30 I8), 50 acres
- Great Bend - Vets Park Lake (30 H8), 13 acres, **FFF**
- Hays - Vineyard Park Pond (17 J3), 0.5 acres
- Horse Thief Reservoir (40 C8), 450 acres
- Jetmore City Lake (40 C9), 106 acres, Periodically Dry
- Jewell - Emerson Lake (7 G1), 10 acres
- La Crosse - Warren Stone Lake (29 E3), 30 acres, Periodically Dry
- Larned City Pond (41 A5), 2 acres
- Liberal - Arkalon Recreation Area (51 H1), 5 acres
- Logan City Lake (4 H12), 25 acres
- Plainville Township Lake (17 D3), 200 acres
- Pratt County Lake (42 J9), 51 acres
- Salina - Indian Rock Pond (32 A7), 2 acres, Periodically Dry
- Salina - Lakewood Lake (20 J7), 6 acres, **FFF**
- Sherman - Smoky Gardens (13 D4), 11 acres, Periodically Dry
- St. Francis - Keller Lake (1 E3), 3 acres
- Syracuse - Sam's Pond (37 D3), 50 acres
- Ulysses City Lake (50, A8)

### REGION 2 (NORTHEAST)
- Alma City Lake (22 H8), 80 acres
- Atchison City Lake 23 - Warnock Lake (11 I5), 39 acres, **FFF**
- Atchison City Lakes 1-4, 6-9, 24 (11 H5), 51 acres
- Atchison Co. Lake (11 G2), 60 acres
- Baldwin - Spring Creek Lake (35 A6), 7 acres
- Blue Mound City Lake (48 A7), 19 acres
- Bonner Springs - North Park Lake (24 F8; B1 G4), 3 acres
- Carbondale - East Lake (23 J1), 265 acres
- Centralia City Lake (10 F8), 400 acres
- Coffey Co. Lake (35 J3), 5,090 acres, **ANS Alert**
- Douglas Co. - Lone Star Lake (23 J3), 195 acres, **ANS Alert**
- Doniphan County - Troy 4-H Lake (11 E6), 5 acres
- Edgerton - Bridgewater Lake (36 A7), 2.5 acres, **ANS Alert**
- Edgerton City Lake (36 A7), 5.2 acres
- Emporia - Jones Park Ponds (34 G8), 3 acres
- Emporia - Peter Pan Park Ponds (34 G8), 3 acres
- Fort Riley Ponds (21 G2), **ANS Alert**
- Gardner City Lake (24 I8; B3 I3), 100 acres
- Garnett - Cedar Valley Res. (35 I4), 350 acres
- Garnett - Crystal Lake (35 I5), 25 acres, **FFF**
- Garnett City Lake North (35 H5), 55 acres, **FFF**
- Gridley City Lake (46 B12), 33 acres
- Herington - Fr. Padilla Pond (33 C1), 2 acres, **ANS Alert**
- Herington City Lake - New (33 C1), 555 acres, **ANS Alert**
- Herington City Lake - Old (33 C1), 367 acres, **ANS Alert**
- Hiawatha City Lake (11 D2), 7 acres
- Holton - Elkhornt Lake (10 J12), 4 acres
- Holton - Prairie Lake (11 J1), 78 acres, **FFF**
- Horton - Little Lake (11 G2), 10 acres
- Horton - Mission Lake (11 F2), 125 acres

**Aquatic Nuisance Species (ANS) ALERTS:** Aquatic nuisance species (ANS) pose a threat to native aquatic wildlife and plants. ANS species include the zebra mussel, New Zealand mud snail, Asian carp, white perch, purple loosestrife, saltcedar, fertile grass carp, and Eurasian watermilfoil. The areas listed above may have a red “ANS Alert” if ANS have been found there. Please consult a current Regulations Summary for more information about ANS and how to prevent their spread.

Cont. on Map 22

Cont. on Map 46
**ZEBRA MUSSEL**

- Zebra mussels are found in Kansas lakes, impoundments and streams. An **ANS-Alert** listing throughout this publication identifies locations known to hold ANS species. Fish may not be transported live from these waters. A more complete listing of affected waters can be found in the current fishing regulations summary.
- They filter vast quantities of water, which alters the entire food web within a waterbody. Although this filtering action may clear up the water in some instances, the clear water can often lead to algae blooms that are harmful to people. The clear water can also allow UV rays to damage fish eggs.
- They can reach high densities, causing problems to water intakes, docks, and boat motors. Nationwide expenditures to control zebra mussels in industrial plants alone are estimated at $310 million per year.
- They have sharp shells that can cut the unprotected skin of humans or pets. Shoes or other protective clothing are recommended when wading in zebra mussel infested water.
- All aquatic users need to do their part to prevent the spread of zebra mussels to other waters in Kansas. Follow control recommendations and tell others how to prevent the spread of zebra mussels.

**WHITE PERCH**

- White perch are found in Kansas lakes, impoundments and streams. An **ANS-Alert** throughout this publication identifies locations known to hold ANS species. Fish may not be transported live from these waters. A more complete listing of affected waters can be found in the current fishing regulations summary.
- White perch have been associated with declines in both walleye and white bass populations.
- They out-compete native fishes for food and space.
- They hybridize with white bass.
- KDWPT has added white perch to the prohibited species list. The possession of live white perch is prohibited. Dead white perch may still be possessed or used as bait on the waters where they were taken.
- Spiny and soft dorsal fins are connected; both fins pop-up when spiny dorsal manually erected.

ANS WATERS

Anglers who have been fishing in waters where aquatic nuisance species (ANS) have been found may not leave those waters with any live fish. The following is a list of ANS waters. New waters may be included whenever ANS are discovered. ANS designated waters will be posted with signs illustrated to the right.

ALLEN COUNTY
Neosho River

ATCHISON COUNTY
Independence Creek • Lang Hollow Creek • Little Walnut Creek • Missouri River • Owl Creek • Walnut Creek

BROWN COUNTY
Mulberry • Terrapin Creek • Walnut Creek

BUTLER COUNTY
El Dorado Reservoir • Walnut River from El Dorado Dam • El Dorado East Park Pond

CHASE COUNTY
Cottonwood River • Chase SFL

CHEROKEE COUNTY
Neosho River

CLAY COUNTY
Milford Reservoir

CLOUD COUNTY
Solomon River

COFFEEY COUNTY
John Redmond Reservoir • Neosho River • Coffey Co. Lake

COWLEY COUNTY
Arkansas River • Timber Creek from Winfield City Lake Dam • Winfield City Lake • Walnut River

DICKINSON COUNTY
Smoky Hill River

DONIPHAN COUNTY
Browning Osbourn • Brush Creek • Mill Creek • Mission Creek • Missouri River • Mosquito Creek • Peters Creek • Smith Creek • Spring Creek • Squaw Creek • Wolf Creek

DOUGLAS COUNTY
Kansas River • Mud Creek • Wakarusa River • Clinton Reservoir

ELLIS COUNTY
Smoky Hill River • Solomon River

ELLSWORTH COUNTY
Smoky Hill River • Kanopolis Reservoir

FRANKLIN COUNTY
Marais des Cygnes River

GEARY COUNTY
Kansas River • Milford Reservoir • Republican River from Milford Reservoir Dam • Smoky Hill River • Geary State Fishing Lake

JEFFERSON COUNTY
Delaware River from Perry Reservoir Dam • Kansas River • Perry Reservoir

JOHNSON COUNTY

Kansas Waterways with Invasive Species Present
(ASIAN CARP, WHITE PERCH or ZEBRA MUSSEL)
Attention Landowners!

Earn extra dollars from your farm/ranch with the Walk-In Hunting Access (WIHA) program and the Fish Impoundments and Stream Habitat (F.I.S.H.) program. Wildlife, Parks and Tourism will be leasing CRP, standing cover crop, milo stubble, field borders, and river/creek habitat for this coming fall hunting season and next spring’s turkey hunting season. Wildlife, Parks and Tourism will be leasing ponds and river/creek access for anglers.

**Highlights of the program:**
- KDWPT pays you to allow hunting access on your land.
- KDWPT will post signs to inform users of property boundaries.
- KDWPT natural resource officers periodically patrol the land.
- Access by foot only. No vehicles allowed.
- State law limits normal liability.
- An atlas is printed showing all properties enrolled.

**WIHA/F.I.S.H. Application**

I am interested in enrolling my property in the WIHA/F.I.S.H. programs. Send me more information.

GAME WARDENS

Anyone who finds evidence of wildlife crime while afield should contact their local game warden. Details of the crime and any other information, such as license tag numbers, dates, and times, should be noted. Local game wardens can be contacted through county sheriffs’ offices, by phoning the KDWP’s Operation Game Thief, 1-877-426-3843, or by phoning one of the numbers listed below, for the county in which the crime was witnessed.

Do NOT use these numbers for general information calls. General information may be obtained by phoning the department’s Information Section, (620) 672-5911 or by calling local offices listed in this publication.

If you’re an active outdoorsman or woman, or just concerned about conservation in your area, get to know your local game warden. They protect the resource in your area. The following list of game warden numbers and the counties for which they are responsible are provided to help concerned citizens curb wildlife crime in Kansas:
